## WILL PAY A VISIT TO PACIFIC COAST

**MANITOBA MINISTER  
ON WAY TO VICTORIA**

**Mrs. Campbell Will Organize  
Chapters of the Order of  
Daughters of Empire**

Winnipeg, Man., Sept. 3.—Hon. Colin H. Campbell, Minister of Public Works, and Mrs. Campbell left Saturday for Victoria. Mr. Campbell will attend the Forestry convention. Mrs. Campbell will make quite an extensive tour. On request of the national chapter of Canada, Imperial Order of Daughters of the Empire, she will visit Victoria, meeting members of the order and lending what help she can that will tend to the early organization of provincial chapters in the three provinces of the west. She will also carry greetings from Winnipeg chapters and extend an invitation to the annual meeting of the National Chapter of Canada, which will convene in Winnipeg in May next year.

### PLEADS NOT GUILTY.

Boston, Sept. 3.—William M. Wood, president of the American Wool Co., pleaded not guilty in the superior court to-day to an indictment charging him with conspiracy to distribute dynamite in Lawrence during the textile strike in that city last winter.

Assistant District Attorney Lavelle told the court that the bail of \$5,000 had been fixed by a commissioner last week and was satisfactory. Samuel L. Powers, attorney for Mr. Wood, said that he had no time to become acquainted with the case and therefore did not know whether he would ask for a speedy trial. It was said that two other men indicted, Dennis Collins, a Cambridge dog fancier, and a prominent Boston merchant, whose name has not yet been disclosed by the district attorney, will be brought into court later in the day. The identity of the third man indicted on the conspiracy charge became known to-day when Fred E. Atneaux surrendered at police headquarters. He is a member of F. N. Atneaux & Co., dye and color manufacturers of this city. Atneaux was taken into court shortly after his surrender.

### STEAMER BURNED.

Baltimore, Md., Sept. 3.—Fire was discovered late yesterday in the lower forward hold in the steamer "Nantuxet" of the Merchants' and Miners' Transportation Company, as she was discharging freight at a railway pier at Locust Point. The water that was poured into the vessel by the fire-fighters caused her cargo to list and she turned turtle and sank to the bottom of the harbor. Two sailors are missing and it is thought they were overcome by smoke in an effort to save some of their effects and lost their lives. The damage is estimated at \$75,000. Several firemen, including Chief Emerich, were on the boat as she went over, but they climbed to places of safety and were rescued by tug.

## GATHERING EVIDENCE OF NEW YORK GRAFT

**Many Police Officers Reported  
Involved in Scandals—  
Facts Being Collected**

New York, Sept. 3.—Some startling evidence on the subject of police graft is likely to be revealed in the reports of the Aldermanic investigation committee, which is just beginning to work here. Evidence of graft has been submitted to the committee within the past 24 hours, covering a period of three years, and involving, it is said, fifteen police inspectors, thirteen captains and numerous lesser officers.

It is said that two police inspectors in the Manhattan districts, twelve police captains of the same borough, one police captain in the Bronx, and four in Brooklyn, have been enriched by the toll from disorderly houses and gambling dens. Further, it is asserted that several police officials had confidential relations with pickpockets and thieves. The criminals, it is said, have been permitted to ply their illegitimate callings for a percentage. One-half of the proceeds of their loot paid out at any of the dozen fences throughout the city is understood to have been turned over to the graft collectors. It is announced that William J. Flynn, chief of the local secret service, has accepted the post offered him by the investigating committee. He will act in an advisory capacity.

Liverpool, Sept. 3.—Thomas Coups, formerly night clerk in the Elks' Club, of New York, and a witness to the murder of Rosenthal, was met by detectives when the steamship Lusitania docked here to-day. He was not placed under arrest, but was accompanied to the hotel, where he refused to make any statement until he had conferred with friends.

## WILL DEMAND ARBITRATION

**AN ANNOUNCEMENT  
FROM WASHINGTON**

**Great Britain Will Request  
Submission of Canal Tolls  
Question to The Hague**

London, Sept. 3.—It is officially announced that the British government will make a formal demand upon the United States government for arbitration of its claims that the Panama canal toll act as passed recently by the United States congress violates the Hay-Pauncefote treaty. Nothing definite is known here beyond the brief official announcement, that formal demand for arbitration will be made, but it is believed that instructions are en route to the British embassy at Washington concerning the situation.

The British demand will be made under the arbitration convention of 1893. Great Britain's contention will be that the question does not affect the vital interests, independence or honor of the United States, and that therefore it is clearly within the scope of the 1903 convention, since the matter to be arbitrated is not an act of congress but an interpretation of Article 3 of the Hay-Pauncefote treaty.

Washington, Sept. 3.—When asked to-night whether Great Britain will make formal demand upon the United States for arbitration of the dispute over the Panama canal tolls, Huntington Wilson, the acting secretary of state, said he had no comment to make.

That such a demand would formally be made has been expected in the state department ever since the second note from the British government on the subject. From the attitude of this government thus far with relation to the dispute, the opinion here in general is that the United States will yield to the demand of arbitration of its right to relieve coastwise shipping from tolls in the Panama canal without a prolonged diplomatic struggle. In some quarters the opinion is maintained that the demand will be flatly declined.

In the last note from Great Britain presented to the state department a week ago by the British charge, it was set forth that if careful reading of the Panama act should justify the impression caused by first perusal, the British government should feel it necessary to ask that the question be submitted to The Hague tribunal.

It is expected that the basis for the state department's primary declination to accede to this request will be the fact that as the American coastwise trade has for many years been barred by domestic laws to foreign shipping, it cannot be maintained that British shipping is to be discriminated against by the proposed canal regulations, which at this stage do not apply to foreign commerce. It will be pointed out by the state department that as far as the commerce is concerned, British and American shipping will be on terms of perfect equality in the use of the canal. It is possible that in the absence of Secretary Knox, who is now on his way to attend the funeral of the late Emperor of Japan, the state department will content itself with an acknowledgment of the receipt of the British note with a promise to return a formal answer thereon when the secretary returns to Washington in October.

Washington, Sept. 3.—No less than three separate and distinct lines of action are open to the British government in dealing with the problem raised by the passage of the Panama canal bill. It is assumed here that because there is more than one available avenue for British shipping to seek relief, the British Foreign Office has said the notice of an appeal for arbitration was premature. President Taft has indicated one method by which the problem may be attacked. Congress, however, did not think well of the suggestion that was to include in the act a paragraph giving jurisdiction to American courts to pass upon whether the act constituted a discrimination against British shipping in violation of the Hay-Pauncefote treaty.

Chairman Adams, one of the House committee on Interstate and Foreign Commerce, and many senators and other representatives have declared that there was a remedy in the statutes. The last avenue is relief through arbitration, although many publications have held that owing to changes of sovereignty over the canal zone and other events developed since the Hay-Pauncefote treaty, Great Britain has an actual right to demand arbitration. As the canal cannot be opened for a year and a half, there will be ample time for the British Foreign Office to elect which method of relief shall be employed.

### British Opinion.

London, Sept. 3.—Foreign office officials say the report in the first place was wholly incorrect, for no announcement of any sort had been made or had been decided by the British government. It appeared, however, too late to obtain confirmation or denial in all the newspapers which printed it. The Panama Canal question remains in exactly the same position it has occupied for some time. The government will, in all probability, propose a reference to the court of arbitration at The Hague, but the method of sub-

**ROYAL PARTY ON ITS WAY WEST—DUKE AND DUCHESS OF CONNAUGHT AND PRINCESS "PAT."**

## DATE NOW FIXED FOR BECKER'S TRIAL

**TRANSFER GRANTED  
TO SUPREME COURT**

**Former Police Lieutenant Enters  
Plea of Not Guilty—  
Trial Begins Sept. 12**

New York, Sept. 3.—On the application of State's Attorney Whitman, the case of Police Lieutenant Becker, charged with the murder of Herman Rosenthal, was transferred to-day from the Court of General Sessions to the criminal branch of the Supreme court before Justice Goff, sitting in extraordinary terms.

Becker, when arraigned still refused to plead, acting on his counsel's advice that the indictment had been "improperly and illegally found." By direction of Justice Goff a technical plea of not guilty was entered for the prisoner. Counsel for Becker protested that he was not ready to go to trial, but Justice Goff quickly over-ruled four motions for delay, and set the trial for September 12.

To the surprise of all, Becker's lawyer did not ask for a change of venue. He requested, however, that the trial be set for some time about the middle of October, when "the present hysteria and clamor" should have subsided.

Becker came into court nonchalantly and pleasantly greeted several friends. He stood and followed the proceedings closely. Aside from the arraignment of Becker, the most interesting of day's developments in the case was the discovery by Mr. Whitman of two alleged hiding places for possible state witnesses conducted by the so-called "twice-trusted" in Hoboken, N. J., and Centerville, N. Y., and the report that much money belonging to Becker had been traced to Port Jervis, N. Y.

Thomas Coups, met to-day by detectives at Liverpool, is one of the few actual eyewitnesses to the murder of Rosenthal. He left New York last Tuesday on the Lusitania. District Attorney Whitman said at the time he feared attempts to spirit away witnesses.

**DISORDER IN MINING DISTRICT.**  
**Town in Virginia Proclaimed Under Martial Law.**

Charlestown, W. Va., Sept. 3.—Martial law was proclaimed to-day in the strike-affected district along Vacant and Cabin creeks. The movement was precipitated by the destruction of railroad property by the striking miners, who tore up tracks in an attempt to stop the shipment of coal. There are more than 5,000 strikers, all of whom are declared to be armed with rifles. The express office at Cabin Creek was entered and boxes of ammunition and rifles were broken open by the strikers, but before they could get away with them the militia put in an appearance and more than a hundred rifles were confiscated. All wires from the strike zone have been cut and communication between the various military posts is impossible.

## KAISER REVIEWS HIS POWERFUL FORCES

**Sixty Thousand Men, With  
Aeroplanes and Balloons,  
Salute German Monarch**

Berlin, Sept. 3.—Emperor William passed in review yesterday the most powerful army ever gathered in Berlin in time of peace. It comprised over 60,000 men and was composed of all branches of the service.

The army flying corps took part in the parade for the first time since its formation. Eight aeroplanes and two dirigible balloons, under the guidance of officer airmen, flew at the head of the marching columns as they passed the Emperor.

His Majesty stood beneath the solitary poplar in the centre of the great temple of the parade grounds and returned the salutes of the troops as they went by.

## MORE RAIN IN PRAIRIE PROVINCES

**Harvesting is Interrupted in  
Some Sections, but in Gen-  
eral Progress is Made**

Winnipeg, Man., Sept. 3.—More rainfall last night over many districts of Manitoba and Northern Saskatchewan and consequently the harvest is again interrupted.

Good progress is being made in Alberta, Southern Saskatchewan and Central Manitoba. It was cool last night in Alberta, Southern Saskatchewan and Central Manitoba. It was cool last night in Alberta, where temperatures within a few degrees of frost were recorded at a number of points, but further east the weather continued mild. Probabilities indicate that it will be generally fair throughout the country to-day.

Regina, Sask., Sept. 3.—For the third day in succession farmers are slashing into the wheat to-day. Saturday there was cutting all over the district, despite Friday's rain. Monday morning again dawned bright and sunny, and the binders were working. To-day the same conditions prevail, though the sky is overcast. There was a slight frost on Monday night, but it was not strong enough to hurt garden stuff. About fifty per cent. of the wheat is cut and there are indications that it will be a fine sample. This district is practically assured of an excellent crop even under any weather conditions, for so much of the grain has already been saved as to make it a paying proposition.

### SCULPTOR'S DEATH.

Seattle, Sept. 3.—The coroner has not yet given permission for the shipment of the body of Louis Potter, the sculptor, who died last week while being treated by a Chinese doctor for a skin ailment. However, the coroner said last night that he saw no reason for any further investigation by him, and the undertaker expects to have the body on the way to Chatham, N. Y., to-day. Apparently the police are making an effort to find Lee Hang Chow, the Chinese doctor, who is in hiding, nor is any step being taken to detain the woman who was registered by Potter as his wife. It is supposed

that she and Dr. J. E. Collinge, an oculist, were the mother of the woman, a business associate of the woman, are in Vancouver or Victoria. It is expected that after the shipment of the body no action will be taken by any of the law officers.

Potter's body was shipped to Chatham, N. Y., at noon, with the coroner's consent.

## G. T. R. OFFICIALS AND GOVERNMENT

**WILL HOLD CONFERENCE  
SHORTLY AT OTTAWA**

**Will Consider Several Matters  
in Dispute Between Com-  
pany and Commission**

Winnipeg, Man., Sept. 3.—President E. J. Chamberlain, of the Grand Trunk railway, stated to-day that Mr. Spithers, chairman of the board of directors, and himself would be in Ottawa next week about the time of the arrival of Mr. Borden, and he indicated that they were prepared to open up with the Dominion government the whole matter of the relations of the Grand Trunk Pacific with the government. While Mr. Chamberlain does not specify the range these negotiations would cover, it is understood that the various agreements of the company with the government will be reviewed with the object of arriving at a satisfactory understanding on points at issue.

Mr. Chamberlain refused to say anything regarding the order of Major Leonard, of the National Transcontinental railway commission, directing the company to take over the section immediately east of here. But the fact that the company is desirous of opening up the entire question with cabinet ministers may be taken to indicate that pending these negotiations the company will maintain its present attitude of disregarding this order.

### AN IMMIGRANT'S DILEMMA.

**Lost His Pocketbook, But Reaches  
Canada Just the Same.**

Minneapolis, Minn., Sept. 3.—In order that Peter Schuman, a farmer from Heringsburg, Kas., with his wife and two children, might continue their journey to Winnipeg, John Dougherty, chief of detectives for the Minneapolis division of the Chicago, Milwaukee and St. Paul Railway, and Joseph Kilgiff, train caller at the station, led in taking up a collection of \$75, which landed the Schuman family in Winnipeg to-day. Schuman was a victim of the "lost pocketbook" game, losing \$48 and having left but \$1.

### MURDER IN WASHINGTON.

Aberdeen, Wash., Sept. 3.—O. Frank, head sawyer at the plant of the Western Coopers' Company, was shot and killed early to-day by Tona Postras, a laborer about the plant. Frank is alleged to have called Postras a vile name earlier in the day and the latter presumably borrowed a revolver from a fellow laborer, sought out the head-sawyer and killed him. Postras started to leave the premises but his way was blocked by Melville Hemphill, whom he shot in the shoulder. Hemphill, despite his wound, maintained his guard and succeeded in capturing the alleged murderer. Postras is in jail.

## VICE-REGAL PARTY IN THE PRAIRIES

**VISIT IS CREATING GREAT  
ENTHUSIASM ON PRAIRIE**

**Duke Makes a Speech at  
Prince Albert Extolling  
Prospects of Country**

Prince Albert, Sask., Sept. 3.—The Vice-Regal train stopped at Saskatoon and here, where enthusiastic demonstrations of welcome greeted the royal visitors. Early in the morning the train stopped at a small town and a number of farmers hastened to the station. The duke, who was taking his constitutional along the track, got into conversation with them. As is always the case, he discussed the crops, the weather and other topics.

Excellent as Saskatoon acquitted itself, Prince Albert too gave the vice-regal party a great reception. The people from the regions round about had come in and a cheering multitude of surprising size greeted the arrival of the train. The distinguished visitors were driven to the city hall square, where, in responding to the civic address of welcome, the duke said:

"Your worship and gentlemen, I beg you to accept my very best thanks as well as those of the duchess and my daughter for your hearty address of welcome. I am glad to pay a short visit to this outpost of the empire, and to witness the success which has crowned your efforts to establish agriculture on a sound basis in this northern latitude. You have allied to my endeavor to familiarize myself with the Dominion, and I can assure you that this endeavor is my constant desire and pleasure.

"The village of yesterday is the city of to-morrow, and this circumstance adds greatly to the difficulties of your municipalities and provincial governments, requiring that they should maintain the balance between the financial conditions of the present and confidence in the future. I trust Prince Albert may always be favored by a wise solution of this problem and the progress the city has enjoyed in the past may always be yours in the future."

Afterwards His Royal Highness inspected the cadets and the veterans and at half-past six the train proceeded on its way. The arrival at Edmonton will be at 10 o'clock to-morrow morning.

Arrival at Edmonton.

Edmonton, Alta., Sept. 3.—In contrast with the downpour of rain at Prince Albert yesterday, it was in pleasant weather, although under a clouded sky, that the Royal train approached the capital of Alberta this morning. An immense throng greeted the train on its arrival. Streets were lined with cheering crowds and gay with flags, bunting and other decorations. The Duke of Connaught, the Duchess and Princess Patricia were driven to the court house, where the address of welcome was presented, in reply to which His Royal Highness said:

"Your Worship and Gentlemen: I have the greatest pleasure in receiving your address of welcome and your loyal and dutiful expressions toward His Majesty the King, which I shall have the satisfaction of conveying to him. The statistics which you give regarding the progress of your city are few but pregnant in meaning. They deal with recent years only, and it would have been instructive to know the equivalent figures regarding the times when men walked, as numbers of living men have done, from Edmonton to Winnipeg on snowshoes. Such figures would have given an interesting lesson in the power of railways to develop a country, for nowhere is that power better exemplified than in the western provinces of Canada. Not only has Edmonton progressed in a marvellous manner, but in the midst of your material prosperity you have always kept in mind the outward dignity of your city, preserving the natural beauty of the site where it stands and making of it a capital in every way worthy of Canada and the great and thriving province of Alberta."

A reception followed. At 1 o'clock the royal party proceeded to Government House, where they were the guests of Lieut.-Governor Bullock at luncheon. At 3 o'clock this afternoon the ceremony of the opening of the new legislative buildings by the Duke of Connaught will take place, and this evening their Royal Highnesses will dine with the provincial government at the Legislative building. Their visit to Edmonton will end to-morrow night, when they will leave for Calgary, making a stop at Red Deer on the way. The arrival at Calgary will be on Thursday afternoon, and after the presentation of the civic address of welcome, their Royal Highnesses will be taken to the Stampede. The following morning the Duke, with three or four of his staff, will breakfast with the cowboys at the Stampede.

### SCOTCH EXPLORER RESCUED.

Christiansburg, Sept. 3.—Dr. William Bruce, the noted Scotch explorer, and a companion, who had been exploring Spitzbergen, were rescued by a steamer at Advent Bay, which they had reached after a long and perilous trip. The news of their rescue was received here to-day.

## TRAIN PLUNGES INTO SWOLLEN RIVER

**FOUR PERSONS KILLED;  
TWENTY-SIX INJURED**

**Washed-Out Bridge Cause of  
Accident—Narrow Escape  
of Other Passengers**

Camp Douglas, Wis., Sept. 3.—Four persons were killed in the wreck of passenger train No. 19 on the C. & N. W. P. M. & O. Railway, which plunged into the Lettonwehr river near Camp Douglas to-day owing to the washing away of a bridge. Twenty-six persons were injured, six of them seriously.

Every car, including the sleepers with passengers still in their berths, was hurled into the stream, whose waters, augmented by the cloudburst of last night, had made it a torrent. Panic-stricken occupants of sleeping cars clad only in night clothes struggled through broken windows to escape. The smoking car was carried downstream, but all its occupants escaped.

The dead: Ralph Thomson, engineer; Fireman Abraham; mail clerk (name unknown); Baggageman Lee.

The train had passed safely over the bridge a short time before, but was flung at the tunnel because of a washout further ahead which made the track impassable. It was ordered back to Camp Douglas so that the passengers might breakfast. Meanwhile the Lettonwehr, flooded by cloudburst several miles up the valley, had torn away the bridge, and, unwarmed, the engineer could not stop his train in time to save it from plunging into the river.

Relief trains bearing doctors and nurses were sent out from several nearby towns. Many of the injured are women and children, and railroad men regard it as wonderful that so few lives were lost considering the crowd on the train.

### ON TRAIL OF MURDERER.

Wallace, Idaho, Sept. 3.—A telephone message from Sheriff Michael Maher, who with a posse is on the trail of John Louma, the Fairville rancher who shot and killed John Lundquist Saturday night and probably fatally wounded Sylvester Trummel, says that bloodhounds followed a direct line over the hills to the Idaho Northern Railway, running between Fairville and Murray. A heavy rain spoiled the trail and the dogs gave up. The chase will be resumed again to-day. The fight which resulted in the killing is said to have been the result of a timber deal.

### BARONESS KILLED IN HUNT.

Berlin, Sept. 3.—The Baroness von Eckhardstein, a Prussian noblewoman, is dead here, the victim of a wild-boar hunt. She was fatally shot and wounded by her kinsman, Count Elnck von Enstein. The Baroness and the Count were shooting at a boar from adjacent stations in a dense wood, when one of the bullets from the Count's rifle was deflected from a tree and struck his relative.

## FIRST HUNTING FATALITY OF 1912

**Vancouver Man Mistakes  
Companion for Deer and  
Shoots Him Dead**

Vancouver, Sept. 3.—Mistaking his companion for a deer, George H. Hill, a resident of 221 Fifth avenue West, shot and instantly killed William A. Randle at Gambler Island. The body was brought to the city late last night on a gasoline launch.

Five men composed the party which left here on Saturday evening headed for Gambler Island for the opening of the hunting season. All next day they hunted without accident, and early yesterday decided to separate. Messrs. Randle and Hill took one side of a mountain, while George Hunter, a mountaineer, took the other. Hill started a deer and in chasing it became separated from Randle. He lost sight of the deer and a short time after thought he saw its tawny back in the brush and fired. His shot was answered by a cry. He rushed to the place and found Randle dead, with a bullet wound through the neck.

Randle was hurrying toward his companion, was crawling under a log, and lifted his head to see where Hill was when he received the fatal shot. With difficulty the body was carried the five miles through the woods to the beach, where it was placed in the gas boat.

Hill, who is a married man with two small children, is overcome with grief as the result of his hasty shot. Randle, who had bachelor apartments with Hunter at the Richmond apartments, Robson and Hornby streets, has several sisters in Vancouver.

### DROPS INTO POETRY.

London, Sept. 2.—Thomas Andrew Armstrong of Dalkey, County Dublin, recently died, leaving an estate valued at \$6,795, also the following directions in verse disposing of the money:

All my earthly goods I have in store  
To my dear wife I leave forevermore.  
I freely give. No limit do I fix  
This is my will and she executing.

### NEWSPAPER MAN MARRIED.

London, Sept. 2.—Dr. George Ernest Morrison, hitherto correspondent of The Times in Peking, has been married to Miss Jeanie Robin, a native of New Zealand, who formerly lived in China. Dr. Morrison returns immediately to Peking to take up his duties as political adviser to the Chinese President of the Republic, to which office he was appointed on August 1.

## BIG RAILWAYS MAKE RUNNING AGREEMENTS

C. P. R. and G. N. R. Make Arrangements for Handling Western Traffic

Spokane, Aug. 31.—By traffic agreements with connecting roads and extensions of its own lines, the C. P. R. has arranged a new freight route from King's Gate to Grand Forks, B. C., which will insure an all-water grade route between those points, according to an announcement today by H. A. Dibble, locating engineer of the C. P. R.

According to this plan, freight will be routed over the C. P. R. tracks to King's Gate, over the Spokane International to Clatsop Junction, and over the Idaho & Washington Northern to Melaine Falls. From Melaine Falls the C. P. R. will build a 40-mile line to Trail, which will involve eleven tunnels between Melaine Falls and the international boundary, but which will obviate heavy grades.

The C. P. R. and the Hill interests recently agreed to build a joint track over the Hope mountains. The C. P. R. also has secured the right from the Hill interests to use the Spokane Falls & Northern tracks from Northport to Rossland and the further extension of the Hill lines to Nelson and Port Sheppard road.

### TAILOR ON RAMPAGE.

Attacks Wife and Lawyer With Hatchet and Fatally Injures Himself.

Central City, Ky., Sept. 2.—When C. O. Dunsinger, a tailor, learned Saturday that his bride of two months was at a lawyer's office here making preparations to file suit for divorce, he seized a hatchet and running to the office attacked both his wife and the lawyer, James Stroud. After hacking them with the hatchet, inflicting fatal wounds upon his wife, he ran back to his shop and dived through a plate glass window, wrecking a gasoline stove inside and setting fire to the building. He then tried to hang himself with a wire rope, but failed, and was hacking himself with the hatchet when firemen dragged him from the burning building. His wounds also are fatal. The lawyer will recover.

### OPERATORS DISSATISFIED.

Montreal, Sept. 2.—The local railway operators of the C. P. R. Telegraph Company are not satisfied with the award handed down by the arbitration committee, which considered their demands for a ten-hour day and time and half for overtime. The majority of the board allowed the men a ten per cent. increase, but J. G. O'Donoghue, the representative of the men, filed a minority report, insisting that the full claim be allowed. S. D. Robertson, chairman of the committee of the operators, remarked that a poll of the men would be taken on the question as to whether or not the committee's award was acceptable. If the men pronounce against the award, a strike may be called.

## DE PALMA WINS MOTOR CAR RACE

One Driver Faints and Another Runs Into Fence With Serious Results

Elgin, Ill., Sept. 2.—Ralph DePalma, driving a 30 horse-power Mercedes, won the Elgin National Trophy automobile race from a field of nine contestants this afternoon. His time was three hours 43 minutes 26 seconds. Ralph Mulford, Knox 'Six,' was second. DePalma's average speed for the distance was 68.4 miles an hour, or two miles faster than for the same race last year. Herdolph, driving his Benz car at a 70-mile per hour clip, led DePalma by three minutes in the free-for-all at 270 miles. Mulford fainted at the wheel of his car in the free-for-all, and his mechanic, Billy Chandler, saved a wreck. Mulford was lifted out at the Judge's stand and Chandler continued the race with Mulford's Knox car.

Clark, driving a Mercedes, ran into the fence in the sixth lap and wrecked his car. Both he and his mechanic, Malone, were taken from the course to a hospital, where their injuries are reported serious. Clark suffered a possible fracture of the skull and surgeons were uncertain regarding Malone's condition, who was possibly injured internally.

### SHORTHAND ANNIVERSARY.

New York, Sept. 2.—Plans are being formulated here to commemorate the centenary of the birth of Sir Isaac Pitman, the inventor of modern shorthand. Mr. Pitman was born in England 100 years ago next January. A large committee of prominent educators and public men will give their support to the celebration project. Among them are Governor Wilson, who is himself an accomplished shorthand writer, former Secretary of the Treasurer Cortelyou, who was for many years a shorthand reporter, and Prof. Brander Mathews. The American commemoration exercises will be held coincidentally with similar celebrations in Canada and England.

## AGE OF DISCRETION IN CASE OF WOMEN

Interesting Definition by Authorities of Y. W. C. A. of United States Cities

New York, Aug. 28.—A woman at 15 may be old to the directors of the Young Woman's Christian Association in Chicago, but that rule does not go in New York. This was made plain here today by Miss Mary Louise Allen, secretary of the publicity department of the New York Y. W. C. A., in discussing the action of the Chicago organization in ordering all women of 15 and over to vacate their rooms because they had "arrived at the age of discretion." Miss Allen said the preference to the younger girls who come here, but we do our best, with small and limited quarters, to care for all women. We have no need to make an age limit as the majority of our older girls, realizing the dangers of a big city, willingly move and make way for the inexperienced. But at 25 a woman is far from being old.

### WAS COMPOSED OF MEN.

San Diego, Cal., Sept. 2.—Kisses bestowed upon a woman who is pretty, even without her consent, is not battery within the meaning of the law, in San Diego, where a jury of men decided yesterday. Theodore Anderson was the culprit, accused by Mrs. Emily Foster of having on July 22 implanted upon her fair neck violently and without her consent three resounding kisses. Anderson denied this, saying that the kisses he bestowed, though without the consent of the fair plaintiff, were light as thistledown in that there was no violence on his part. The jury, taking into consideration the temptation Anderson was subjected to by the charm of the pretty complainant, gave him the benefit of the doubt arising from the conflicting testimony and did not recommend the punishment of the osculatory assault.

### IN A DEN OF WILD BEASTS.

Oakland, Cal., Sept. 2.—Miss Mae Clark, the young woman who received 250 proposals of marriage when her offer to wed in a den of lions at a local amusement park provided the proprietor furnish the groom became known recently, appeared in the cage last night, but was not married. She has not yet been able to trim her list of eligibles down to the point of a comparison.

Another couple, Miss Ruth Kavanaugh and George W. Lowenstein, were married in the den after Miss Clark's appearance and collected the \$50 prize offered by the management. The wedding party included a lioness, leopard, panther, puma and jaguar. Their trainer, armed with a whip and pistol, was also among those present.

### ZEPPELIN AGAIN WRECKED.

Cologne, Sept. 2.—Another war dirigible came to grief Saturday when the military Zeppelin II was hurled by a squall against some factory chimneys. The airship had just emerged from its shed with the entire soldier crew on board when a violent gust of wind tore the tow ropes from the hands of the squad of the balloon corps, who were trying to steady the balloon. Two of the inside balloons were ripped to ribbons and the propellers were much damaged, while two of the crew were injured slightly.

## RIVALS VANCOUVER IN HOLD-UP BUSINESS

Residents in Fairbanks District Consider the Organization of Committee

Fairbanks, Alaska, Sept. 2.—A succession of robberies and holdups in the mining districts tributary to this city has aroused indignation to such a pitch that plans are on foot for the organization of a vigilance committee to hunt down and summarily punish the desperadoes responsible for the reign of terror.

The latest and boldest of the depredations occurred Thursday. In broad daylight two masked robbers held up and robbed of money and gold to the aggregate of \$116 Sam Kovacevich, a Fairbanks Greek miner. Kovacevich was brutally beaten and kicked about and was left lying in the road insensible. The scene of this robbery was the main road to Fairbanks Creek, on the divide at its head.

Less than forty-eight hours before, on a part of the same road, not more than three miles distant from the scene of the Thursday holdup, a bandit held up Emil Kaakinen, a prominent Fairbanks hotel man. Kaakinen luckily had left all his valuables at home before undertaking the lonely journey.

A bolder robbery was undertaken there before the last one on Eya Creek mining claim, thieves breaking into a boiler house wherein was stored four tons of black and containing much gold. The claim owner happened to visit the boiler room a few minutes after the thieves had begun. They evidently saw him coming and fled, for the stolen sacks were found in a nearby culvert. The Chatanika district also has been suffering through visits of robbers, several sluice box robberies having been reported.

Facing such unfavorable conditions, citizens have called meetings to devise some means of organizing a protective force of their own as the United States marshal's office has been appealed to with little avail.

### WOULD RESIGN.

Philadelphia, Pa., Sept. 2.—William Burke, the reformed councilman who sent in his resignation when he wrote a confession of his past life as a convict, says he will withdraw the resignation, if requested to do so by Mayor Blankenburg. The mayor is away on a vacation, and beyond expressing some hope for Mr. Burke and offering him his assistance, has not indicated whether he desires Burke to retain his seat in the council.

### STRIKERS FIRE STEAMER.

Antwerp, Sept. 2.—The dock strikers here attempted again Saturday to burn the steamship Finland, of the Red Star Line, which carried the American Olympic team to Stockholm. The flames were quickly extinguished with only slight damage. This is the third attempt at arson since the Red Star dockers struck two months ago.

## AMALGAMATION OF BANKS APPROVED

Government Sanctions Purchase of Traders' Bank by Royal Bank of Canada

Ottawa, Aug. 26.—The government has approved the purchase of the stock, assets, etc., of the Traders Bank by the Royal Bank. At a meeting of the Treasury Board the matter was discussed, and the application sanctioned. A subsequent meeting of the Council ratified the action of the Treasury Board.

What is sometimes called the amalgamation, though in reality it is an absolute purchase of one bank by the other, thus is completed.

The act, as revised in 1901, expressly recognized the policy of permitting one bank to sell its assets and business to another. The tenor of the act is to the effect that consent will be given by the Governor-in-Council unless there are substantial reasons against it.

In this particular case the shareholders of the two institutions, at their respective meetings unanimously approved the agreement negotiated by the directors. No objection has been filed against the transaction by any shareholder.

### SUCCESSFUL JOURNALIST.

London, Sept. 2.—Charles Pearson, founder of the Daily Express and several weeklies and monthly magazines, and whose sight is nearly gone, has retired from daily journalism. The Express has been acquired by Ralph Blumenfeldt, who was born in Wisconsin, but is now a British subject, and one of the pillars of the Unionist party, besides a thorough supporter of imperial preference.

### LARGEST PASSENGER LIST.

New York, Sept. 2.—The biggest number of passengers to cross the Atlantic in the first cabin of a single steamship are now steaming into this port aboard the Olympic of the White Star line. A cable received by officials of this line in New York announced that 1,125 persons were quartered in the first cabin of the big steamship as she steamed away from Cherbourg Thursday evening.

## PERMANENT WORK ON SAANICH ROADS

TENDERS LET FOR SEVERAL CONTRACTS

Government to Contribute to Paving of Gorge Road From City Boundary

At the meeting of the Saanich council on Saturday it was decided to let the contract to Brown & Simmons for the grading, draining and paving of Marigold, Blackwood, and Jasmine streets, the three streets near the city boundary which were approved by the ratepayers by by-law in July for permanent improvement.

This contract will be let subject to financial arrangements being made satisfactory to all parties. The same course will be taken in connection with Granville and Wellington roads. The recommendations came from the works committee, and were adopted.

The inauguration of this permanent work in Saanich marks a considerable step in the improvement of the district, and is likely to be followed by other sections, for which petitions will be put in by ratepayers.

Gorge Road.  
A deputation to visit on Hon. Thos. Taylor, minister of public works, consisting of Acting Reeve Quick, Councilors Dunn and McGregor, was appointed, at the suggestion of the minister, who wrote that he had been petitioned by residents of the Gorge road from Harriett street (the city boundary) to Tillicum road to assist in a grant the permanent paving of the road. The government, he said, was prepared to give a grant.

Hon. D. M. Eberts, member for the district, will join the deputation, to see what share the government is prepared to bear, while the owners will be expected to contribute by way of a local improvement fund.

Burnside Road.  
It was decided that the acting reeve and the engineer, Mr. Topp, should meet Mr. Goward with reference to the Burnside road, and that the solicitor should watch their interests. The manager of the B. C. E. R. wrote that the company could not take responsibility, and that what he meant was the subject of discussion. If he understood by responsibility liability for accidents during the progress of operations, the council felt the onus must lie with the company, if responsibility for cutting down the grade, then the council would be actionable from owners whose access to property was affected. To have this phase cleared up, a meeting will accordingly be held.

Road Improvements.  
F. Van Sant, superintendent of the V. & S., said that as soon as the municipality graded the approaches to Maple street level crossing, the company would do its share of the work.

The council did not feel able to take any action with regard to an application to lay a main in Woodland park asked by C. Blackstaffe, until it was evident the city would be able to supply water, their present services in Saanich being curtailed on account of the pressure on the Elk lake supply.

Feeling that new roads must be dealt with before diversions of old ones, the council did not take any action with regard to altering the situation in section 8, range 3 east, where within 1,300 feet the V. & S. tracks twice cross the main road between Keatings and Saanich. Mr. Saul had offered to give land for a right-of-way alongside the track so that the road could be straightened, and the crossings abandoned. One owner's land would have to be expropriated, as two-thirds of an acre would be required.

The Victoria branch of the B. C. Society for the Prevention of Cruelty to Animals asked for a further grant. The matter was laid over for two weeks.

## CHINA RESENTS BRITISH ACTION

London, Sept. 3.—Deep resentment is felt in China over the British demand for Tibetan autonomy. Many of the Chinese merchants in Tien-Tsin and other cities threaten retaliation for what they regard as an insult, and propose to boycott all British goods entering Chinese ports, according to a news agency dispatch received here today.

Total shipments of lumber from the United States were \$35,000,000, against \$20,000,000 for the previous year.

## Rest Gowns AND Bath Robes

The latest to arrive is a magnificent shipment of Fall Eiderdown, French Flannel and Flannelette Rest Gowns and Bath Robes—fresh from their packing cases last Saturday.

### Eiderdown

Those in Eiderdown come in a pleasing variety of new shades, including several with Paisley trimmings and satin quilted collars and a few with the new set-in hood. Prices are \$10.50, \$9.00, \$6.90, \$5.00, \$3.75 and.....\$3.25

### French Flannel

## FRENCH-CANADIANS WANT OWN SCHOOLS

NEWSPAPER ISSUES AN APPEAL, STAND TOGETHER

Claims Canadians of French Descent Are Being Wronged and Persecuted

Ottawa, Sept. 2.—A vigorous appeal to French-Canadians of Ontario to resist the new regulations of the Whitney government relative to bilingual schools is contained in a late issue of La Justice-Tremblay, late secretary of the Congress d'Education d'Ontario. Under the heading "Organization is Urgent," the article alludes to the opening of the schools on September 3, and says that the French people view the situation with disquietude. On one side withdrawal of grants is threatened, on the other the complete abolition of French in the schools. The government continues La Justice, would desire that the bilingual teaching of French children should come from Anglicized teachers who naturally would have the tendency to neglect the instruction of French children in their mother tongue, which, officially, has equal rights with English in all parts of Canada. The only thing to do is to resist the new regulations. To that end La Justice calls on the French clergy to take the lead, and urges formation in every district, parish and village of committees to aid and stimulate the school boards if they are fainthearted.

"This is not an ill-tempered agitation, but a necessary one, provoked by official persecution. As it will probably be necessary to expend money upon our rural schools, let national subscriptions be raised from one part of the country to the other to compensate for the loss of grants. Let all French-Canadians unite and bilingual schools will have nothing to fear from the new legislation which comes into force next month."

La Justice does not concede the right of the government to withhold the grant as a matter of constitutional right.

### SHOT HIMSELF.

Bridgetown, N. S., Sept. 3.—Wilbur Young shot and killed himself at Bridgetown last evening while his mother was at church. After the services Mrs. Young returned home and when she went upstairs, where a light was burning, Wilbur was found kneeling by his bedside with his hands and head down. A foot away was a revolver. Taking him by the shoulder she

turned him aside and he fell to the floor. A slight examination showed that the man had been shot through the heart. The coroner's verdict was accidental death by a shot from a revolver in the hands of the deceased. Young was 35 years of age.

### CANAL LOCK DAMAGED.

Sault Ste. Marie, Sept. 3.—Letting go her lines before orders were given by the canal officials to do so, the steamer Clifford Moll, upbound in Poe lock, this afternoon, was jammed between the lock walls and the steamer Venezuela, which was locking up for her. After ineffectual efforts to release herself, the steamer was got out, but not until about twenty feet of the top facing on the lock wall on the south side of the lock was torn off. The cement

was broken up for two layers down. Locking was suspended for two hours until the damaged portion was repaired sufficiently to avoid further damage.

### C. P. R. STATION BURNED.

North Bay, Ont., Sept. 2.—The C. P. R. station at Carleton Place was totally destroyed by fire which started at two o'clock this morning and spread so quickly that the occupants barely escaped with their lives. The families of the station agent and the restaurant keeper resided in the upper portion of the station.

"When I was a tiny boy with ringlets," said the man with little hair, "they used to call me Archie."

"I suppose now they call you Archie."

## TENDERS

Tenders will be received by the undersigned for the erection of a Frame Building and the laying of Concrete Sidewalks at Lampon Street School. Tenders must be in by Thursday, Sept. 5th.

Plans and specifications can be seen at the Architect's Office, Mr. Sedger, Bastion Street, City.

A. MULCAHY,  
Secretary School Board.

## ROADS CLOSED

Transit Road and St. James street are closed to through traffic until further notice.

R. FOWLER  
Municipal Engineer.

Copy for classified advertisements must be received before 2 p. m. of day of publication.

### TRANSCONTINENTALS.

The Canadian Northern Railway Company is negotiating with the city of Vancouver for freehold and riparian rights on the shore and in the bed of False Creek within that city for the purpose of establishing suitable terminal facilities for its transcontinental system. It is not with the details of any bargain that the citizens of Vancouver may make or refuse to make with the transcontinental railway; it is rather with the announcement that it is the intention of the company to establish its Western terminal at Vancouver that we wish to deal. The News-Advertiser, a newspaper published in the Terminal City, is modestly presenting the advantages that must accrue to Vancouver by meeting the company's offer, and as that newspaper is under the same management as the Colonist newspaper of Victoria, it will be interesting to readers of the Times to learn what is being said to induce Vancouverites to accept the railway company's terms. The News-Advertiser says:

"Whatever shall be decided about the terms it will be agreed that the filling in of this part of the inlet, the erection of a station costing a million and a half, and the establishment there of a comprehensive system of railway terminals, suitable for a vast transcontinental system, will make a remarkable improvement in the central part of the city."

As is the case in Victoria respecting the Songhees reserve, the company demands a freehold. A lease of the property will not do; but that is Vancouver's business. What is remarkable about the advocacy of this latest deal is the authoritative announcement that the "terminal" of the railway is to be located at Vancouver. Ever since Hon. Richard McBride affixed his signature to the agreement with the Canadian Northern Company, dealing with the Songhees reserve, it has been proclaimed that Victoria is to be the Pacific Coast terminal of this railway. The Canadian Northern is to be one of the "five" transcontinental railways having their terminals in Victoria.

Two years ago the company placed large areas of its property at Port Mann on the market, and many thousands of dollars was taken for lots sold on the assurance that the Pacific terminal of the railway is to be at Port Mann. The latest city to be bitten with this "terminal" bug is the city of Vancouver. But we have the remarkable condition—unique in the long record of railway-building that a railway company has authoritatively announced its sure-enough terminal at three coast points lying within a radius of 85 miles.

To give additional emphasis to the announcement that Vancouver is to be the terminal the News-Advertiser says that the company is preparing to spend \$4,000,000 in "filling in" the creek bed, \$1,500,000 on a depot, and "several more millions" to gain access to Vancouver by way of a tunnel. Let there should be misunderstanding let us hasten to say the proposed tunnel is not the Seymour Narrows tunnel. That is one of the good things yet in prospect for Victoria alone. No other city can lay claim to that preserve.

The query may be reasonably asked, in view of these duly accredited rumors as to the location of Pacific terminals for the Canadian Northern, "What is a terminal?" As we are not constructors of railways, we must pass the question up to the chief government organ, which during a prolonged period of years has been affirming that the real "terminal" is to be at Victoria.

### PARADE OF LABOR.

Apart from the many features of general and commendable interest in the programme of the Labor Day celebration in Victoria, the parade of the trade and labor organizations was a worthy demonstration. Never before in the history of the city has so large and representative a body of men formed a purely representative procession through the streets of the capital. While much of the credit for this must be given to good organization, the most significant feature of the event was its proof of the animated condition of trades activity in Victoria. These men represented the largest and perhaps the most important class in the country, for without them none of the other evidences of progress could become manifest. They were, too, a creditable presentation, the men constituting the procession being men of fine types, clean, well groomed and apparently prosperous. There was in their bearing some manifestation of the dignity of labor, not offensively, it is true, but in that spirit which is becoming more and more characteristic of the men who toil with their hands and produce.

The marshalling of so large a force of organized men employed in their various handicrafts shows what goes to make up the bone and sinew of the country. The bronzed face, garlanded with worth, Doth never envy royal birth; The swart brow, diamonded with sweat Hath never need of coronet.

Its pride is in what it is, and not in what someone else is.

Among these men could be found many thoughtful students of economy, both political and social, and the influence of such among their fellows, when tempered with prudence and controlled by a high sense of justice, cannot but betoken the universal progress of the race. The whole celebration was in every way worthy of the organizations of which it was composed.

### BONUSING SHIPBUILDING.

Announcement has been made in the press of the province that it is the intention of the Board of Trade of Vancouver and Victoria to take counsel together and enter a protest against the action of the Borden government in letting contracts for the construction of fishery-cruisers for the British Columbia coast service in Britain instead of in Canada. The representations to be made will point out that, while ships constructed by British firms may enter Canada free of duty, every item entering into the construction of Canadian-built ships is subject to a customs tax. So strong is the contrast between the conditions respecting British and Canadian built ships that one of the leading business men of Vancouver characterizes the importation of British-built ships as "legalized smuggling." If one may judge from the published discussions of the question, it is proposed to ask the government to provide a bonus for the construction of government ships in our own Dominion.

That adequate facilities for the construction of such ships as have been contracted for exist in British Columbia is pointed out and that ships of larger tonnage have already been built in this province is also shown. While it is admitted that the government cruisers can be built in Great Britain for much less money than in Canada, it is also pointed out that one and a half million dollars spent in Canada will, in the end, prove greater economy than would be effected by spending one million in Great Britain for the same work. Almost every craft is represented in the construction of a ship, and the money spent would proportionately benefit a wide range of business. The money would be expended at home, and to secure this end a bonus is to be asked from the government making possible the building of the next ships that will be required within our own territory.

With many of the arguments put forward there will be little disposition on the part of the public to quarrel. But as the memorial of the Associated Boards of Trade is to set forth these arguments as arguments for the granting of a bonus, it should be pointed out that one reason why British shipbuilders can construct vessels at less cost is that the raw material enters the United Kingdom free of duty. There is also manifest injustice in permitting the finished vessel to enter Canada free of duty while the materials out of which such ships are built is taken a heavy duty. But we doubt if this can be justly or rightly overcome by the granting of a bonus. This is simply taking the money of the taxpayer out of his pocket to put it into the pockets of the shipbuilding industries. It is laying a further burden on the shoulders of the taxpayer in order to facilitate the making of profit by the shipbuilding concerns. A much simpler and, we think, equally effective way, would be to remove the duty on the raw materials entering into the construction of ships. This would not involve injustice to any industry already protected, as it might be stipulated that only the materials entering into the construction of ships should have the duties abated. While this would slightly decrease the revenue of the customs department, the decrease

## 5% Discount

would not be nearly so great as would be the bonus required to meet the conditions in other ways.

When people set about moulding public opinion and presenting memorials to governments asking for considerations which affect the taxpayer they should find the method by which the best interests of the country could be served with the lightest possible burden on those who must pay the cost. Certainly the easiest way out of the difficulty in the present case would seem to be the remission of duty on raw materials. With every other argument of those interested in the development of the shipbuilding industry we are inclined to agree. The facilities are here and if the raw material could be imported duty free an impetus should be given the industry which would make it unnecessary to go to Great Britain for ships of a certain class.

The Toronto News says: "The capture of a law-breaker in the wilds of Central Africa serves to emphasize this fact, that the arm of the law is long, and that justice will be meted out wherever the Union Jack is unfurled. The cost of capturing an occasional brigand or outlaw is of little consequence compared with its effect in making the law respected on all continents and in even the most desolate regions." Respectfully referred to Attorney-General Bower, Gun-A-Noot Spintjunt, and then some.

At a reunion in Erie, Kansas, among those present were the host's first wife, her second husband and the children of both marriages; and everything went merrily as a wedding bell. There have been several such incidents of late, the separated meeting each other without embarrassment. An exchange asks: "Can the people of this twentieth century be getting as lax in their views as were those of the days of David and Solomon, when every man was very religious and had as many wives as he could afford to keep? We think not. Our own opinion is that one of Bernard Shaw's plays is being acted out in real life."

The executive of the Kamloops Conservative Association held a meeting this week to protest against the recent dismissal of W. C. Cowell, Dominion Land Agent, at the behest of one of the government machine politicians. They declared Mr. Cowell to have been an efficient public servant and expressed the opinion that it would be wiser to have an efficient Liberal in so responsible a position than an inefficient henchman of their own party. If a few of the more honorable Conservatives of the West and there are a great many of this class—will similarly record their protests against the adoption of the spoils system of the plunderbund that is trying to ditch the province the slaughter of innocents will be effectively checked.

### THE SPORTSMAN.

By John Kendrick Bangs.

Goin' fishin'! Bet your hat, Fishin's what I'll soon be at. I know a dandy little pool. Up behind the destrict school, Where the trout and minnows play Hide-an'-seek the livelong day.

Where's my hook? Ain't got no hook. Never use 'em in my brook. Wouldn't hurt them fish, by gum. Not for—not for any sum. Like to watch 'em, don't you see, Playin' peek-a-boo with me.

Ever hunt? You bet I do; Hunted all this country through, Fox and deer, and pa'ridge plump, Big jack-rabbits on the jump. Now and then a chipmunk cuts 'Cross my path in search of nuts.

Ever shoot 'em? I guess not, Nary one by me is shot. Why should I go shootin' things? That ain't hurtle me, by jings. Guess it's plenty sport for me Watchin' them behind a tree.

What's the fun? Waa! I dunno; Sort o' sets my heart aglow. Seem birds and fish and deer Flirtin' round without no fear, Livin' quiet in the wood. Akin' nothin' but their food.

Like to lead that kind o' life, Sort o' free from care or strife, Breathin' fresh air all day long, Never thinkin' right or wrong, Eatin', sleepin', havin' fun, That's no harm to anyone.

## HOW IMMIGRATION TO CANADA GROWS

GRADUALLY NEARING  
HALF MILLION MARK

Four Hundred Thousand Will Be This Year's Total—B. C.'s Figures

"The immigration to Canada for the current year will total 400,000, exceeding the figures for the twelve months ending March 31 last by 50,000," said W. D. Scott, superintendent of immigration, who arrived in the city last evening on one of his periodical visits of inspection.

"The total immigration of last year," he added, "was 354,237, originating as follows: Great Britain, 138,121; United States, 133,710; other countries, 82,406. Of these it is estimated that 20 per cent British, 35 per cent American, and 31 per cent from continental countries made entry for homesteads in Western Canada."

The immigration for the first three months of the present year, on which Mr. Scott bases his prediction as to the total was 175,346, divided into nationalities as follows: British, 69,919; American, 53,343; from other countries, 52,084.

British Columbia's total immigration last year was 51,843, a wonderful increase over the aggregate of the year before. For the three months of the present year the total was 22,856. The total immigration to Canada since 1900 was 2,118,712.

The figures showing Japanese immigration as furnished by Mr. Scott are interesting. In 1907-08 occurred the "big trek," when 7,601 Japanese came to this country. The Lemieux agreement was then arrived at and the number at once dropped, as the following figures show: 1908-09, 495; 1909-10, 271; 1910-11, 437; 1911-12, 285. For the three months of the current year the number of Japanese coming to Canada is given as 222.

Expenditure on immigration has trebled in the last ten years. In 1900-01 it was \$44,723. Last year it was \$1,354,736.

### CITY WAS ORDERLY THROUGH HOLIDAY

Two Street Disturbances and Language Case With Drunks Comprise Magistrate's List

Order in the city from Saturday last and through the holiday was generally above the average for holiday times here, the police court docket this morning having but a short list of drunks and three minor cases. Rowdyism on the streets was absent during Saturday and Monday nights, and but for two disturbances, one on Johnson street and on Yates street, the members of the police force were not called on for any extra efforts.

Fighting on Johnson street brought J. Alexander and Joseph Velton to the court this morning, the latter with a battered eye, and each was fined \$5, with the alternative of ten days' imprisonment. Each charged the other as the aggressor. On Yates street G. Emmett and George Francis caused a disturbance, but this morning Francis said Emmett was not to blame, the trouble having been caused by a third party, who evaded arrest. Francis paid \$5 and the other man was released. Frank Wall, who spoke over freely regarding his family affairs on the street and lapsed into bad language, admitted his fault, and was fined \$5.

Should the Victoria Sealing Company fail to remove the old sealing vessels from Victoria harbor by the Point Ellice bridge by Monday next, the much adjourned prosecution against the company will be gone on against Capt. Clarke, the harbor master, with. Capt. Clarke, the harbor master, prosecuted the company some time ago, but the case has been remanded from week to week pending an arrangement. In court this morning a further remand was given on the understanding that if the remedy is not effected by Monday the case will go on.

A. Blair and A. B. Steele were charged with automobile speeding and paid fines of \$20 each. In the case of Mr. Steele, his son was driving the car, and caused danger to three cyclists on Moss street.

Samuel Johns, a rancher, charged by Richard Gidley, game warden, with having a quail in his possession, was fined \$25. The accused admitted the fact, and said it had been caused by thoughtlessness.

### TO-MORROW'S MEETING.

Public Invited to Attend Welcome Gathering—No Evening Dress.

A number of prominent forestry men arrived in the city this afternoon to attend the convention which opens with a public meeting to-morrow evening. These included George Harcourt, deputy minister of agriculture for Alberta.

In this connection the Times is requested to announce that to-morrow evening's meeting will open at 8:15 o'clock, when Sir Richard McBride, Acting Mayor Okell and Hon. W. R. Ross will deliver addresses of welcome. The public are invited to attend. Evening dress will not be necessary, the proceedings being in the nature of a welcome meeting.

## You'll Be Interested in Our Showing of Women's Wearing Apparel

BECAUSE IT INCLUDES ALL THAT IS NEW AND POPULAR IN THE FASHION CENTRES

AND if you want the best at a moderate price you cannot do better than investigate our stock. There is many very fine new styles in Women's Costumes in all sizes and a great assortment of materials to choose from. The coats are a little longer than those that have been so popular this season, the skirts are narrow, but have various forms of pleats that makes walking easy. Some have plain panels. The sleeves in the tailor-made styles are distinctly manish, and the waist lines are slightly high. In the fancy Costumes the coats are in the cut-away style.

In long coats we have a fine range of colors and materials to choose from and the blanket cloths are very prominent this season. It is a sensible material that is very warm, and the styles are both pleasing and comfortable.

Dainty new dresses in both silks and cloths are to be seen in this department, and both the styles and the prices will meet with the approval of most women.

Let us show these beautiful garments to you on Wednesday.

## Women's Sweater Coats for Fall Wear

AND HERE'S A BIG ASSORTMENT TO CHOOSE FROM

IN fact thirteen large cases full of these garments have come to hand and are now marked off and are ready for you to choose a style and a color that will suit your taste. To find a garment that the average woman can make more use of than a good sweater would be a puzzle for any buyer, and as there are many new and interesting styles on the market for this season and the prices were so reasonable, our buyer was tempted to buy a bigger stock than ever before.

As usual we have marked them at a close margin of profit to stimulate rapid selling and to uphold the reputation of the Spencer store as a house for bargains and excellent qualities in women's wearing apparel. We invite comparison and are confident that you'll decide on the best and share in the benefits that our huge buying powers offer to our patrons.

At \$2.25 we have two styles to offer. One has a V-shaped neck and the other has a roll collar. The colors are plain navy, cardinal and white. They come in a fancy knit and have a plain band down the front through which the buttons show.

At \$2.45 there are Norfolk styles in a plain ribbed stitch. Have a plain band down the front and round the V-shaped neck, and are to be had in colors cardinal and black. All sizes and the colors are fast.

At \$2.75 there are colors cardinal, slate, navy and white to choose from and all the garments have the V-shaped neck. They come in a fancy raised stitch and the peep button fastening is through a plain band down the front. Patch pockets and turn-back complete the garments.

THE SHAKER KNIT SWEATERS are to be had at each, \$1.50, \$2.50, \$3.00 and \$5.00, and are very fine values for the money. The difference lays in the quality of the worsted and the weight rather than in the design of the garment. They are a mannish style that will be very popular this season, have a high collar that fastens close up to the neck by means of loops and buttons and come in colors grey and white only.

LONG COAT SWEATERS are here in colors white, navy, cardinal and black. Some of them have high collars. All have side pockets and are made in fancy raised stitches with plain band down the front. Will launder well and render long service.

MAKE YOUR CHOICE AT ONCE AND BENEFIT TO THE FULL.

## Suit Cases That Set a Standard for Quality

AND there is such a variety to choose from that it is impossible to describe them all in this small space, still we will attempt to give you some idea of the values we are offering. We invite you to inspect these lines and measure them by your own ideas of what a good Suit Case should be like.

LEATHERETTE SUIT CASES, 24-inches long are here in a good tan color. They are fitted with brass locks, side clasps and leather handles. The corners are protected with both steel and leather and they will resist no end of rough wear. Are well finished and a great value at each, \$1.50 and ..... \$1.65

LEATHERETTE SUIT CASES, with walrus hide grain. These are made in a similar manner to the above and are to be had in colors tan and black. Size 24 inches and a great bargain at \$1.95 and ..... \$2.50

EXTRA LARGE SUIT CASES, made of a good leatherette in tan color. Sizes 24 and 26 inches are to be had and they are extra deep. The finish is really fine and the insides are fitted with shirt flaps and straps. Prices, only \$4.50 and ..... \$4.75

MANY OTHER STYLES ARE TO BE HAD AT SIMILAR PRICES.

## There's a Comfort in Knowing That Your Baby is Comfortable

AND it is precisely for this reason that we recommend you to wrap it up in these flannelette sheets and fleecy eiderdown blankets. As to the expense, it isn't worth considering when you weigh it with the comfort you give to your child and the length of service the goods will give to you.

FLANNELETTE SHEETS for the crib. Two sizes are to be had, are finished with pink and blue borders, are a very fine weave and are most reasonably priced at 75c and ..... \$1.00

CRIB BLANKETS—These are not only a warm and durable quality but they are designed to amuse the child. They are to be had with blue or pink backgrounds with cats, dogs, chickens, rabbits and other figures woven in white. Size 30x40 inches cost only 75c, and size 36x50 inches is a bargain at each, only ..... \$1.25

CRIB BLANKETS of extra large size, woven from a soft fleecy eiderdown and are to be had in plain white with pink or blue borders. You'll be pleased with the quality that these represent. Size 48x60 inches at, per pair ..... \$3.00

## DAVID SPENCER, LIMITED

## MATTERS FOR COUNCIL AT TO-NIGHT'S SESSION

Conference With Telephone Officials To-day—Oil Arrives From Refinery

At the meeting of the city council this evening the council will have before it Alderman Okell's motion with reference to the establishment of a civic bureau.

The result will be reported of the conference held this morning with representatives of the B. C. Telephone Company to endeavor to straighten out the tangle which has arisen in connection with the conduit system, and similar matters in which council and company have common interests. It is expected the conference will succeed.

In clearing the air of a number of points in dispute.

The health committee will submit a report of their deliberations this morning, in which it is understood they will be able to show some progress in the inauguration of the extended garbage collection service, now that tenders have been received for two sub-stations, and there is also a report to come in from the electric light committee.

In that report will be set out the proposed points at which additional lights are to be placed, a schedule having been prepared by Electrician Hutchison.

The council will also be called upon to pass a resolution approving of action by the attorney general against James Leigh & Sons, the occupants of the end of David street, for a declaration to restrain occupation and obstruction of the navigation of Selkirk waters. This is the first step in the fight for regulation of street ends by the city.

After being out of oil for some days the city engineering department had the satisfaction to-day of receiving a new load from Port Moody, and ac-

cordingly street oiling can be resumed. Last week the B. C. Refinery Co. found they had so much to do that they could not spare a supply for the city at that time. Now they can fulfill their orders to customers once more.

It was Monday morning and they met in a downtown department store.

"I saw you in church yesterday, dear," gurgled one.

"Oh! Were you in church?" gurgled the other.

"Yes, love. And I noticed that you had at last made your husband accompany you to divine worship."

"Of course he went with me. He'd rather go to the theatre, but the theatres aren't showing anything on Sundays now. But he disgraced me."

"In church? How?"

"The rector read four chapters from 'The Acts of the Apostles,' and my husband insisted on getting up and going out after every act."

In 1900, the railroads of the United States carried 11,877,785 passengers to the mile, and in 1901, 12,000,000, and in 1910 the total was 21,942,325.

## BRIEF NEWS OF THE CITY

Correction of Stupid Blunder—Phone up 820 for The Thomas Catterall Co., Ltd., instead of erroneous number and address given in the local telephone directory, General Builders, 921 Fort St., Victoria, B. C.

Trunk repairs, new locks, suit case locks and repairs, Walter & Knapton, 610 Pandora St., Phone 2439.

Teaming.—G. F. Blyanger, dealer in coal and teaming. Phone 2399.

Merchants' Lunch at the Bismarck.

"Nag" Roof Compositions are fire-proof and add years to the life of an old roof. See Newton & Greer Co., 1325 Wharf street.

Four Per Cent.—You can deposit your money at 4 per cent. interest with The B. C. Permanent Loan Company and be able to withdraw the total amount or any portion thereof without notice. Cheques are supplied to each depositor. Paid-up capital over \$1,000,000, assets over \$3,000,000, assets over \$2,000,000. Branch office, 1210 Government St., Victoria, B. C.

Roofs made fire-proof by Newton & Greer Co., 1325 Wharf street, makers of "Nag" Roof composition.

Hanna & Thomson, Pandora Ave.—Leading funeral furnishing house. Connections, Vancouver, New Westminster and Winnipeg.

"Nag" Roof Composition, fire-proof and moss killing. See or phone Newton & Greer Co., 1325 Wharf street.

Money to Loan.—We have money to loan at 8% interest on improved city residence property on easy repayment terms. Builders will do well to inquire. The B. C. Permanent Loan Co., 1210 Government St.

Special Notice.—Carload of shingles, extra quality received. Special prices. R. A. Green & Co.

Expert Locksmithing.—Instantaneous key fitting. Jas. Walker, 644 Fort St. Phone 444.

"Sepias"—Soft, delicate, refined. The last word in high grade photography. The Sepia Studio, Douglas and Yates.

S. P. C. A.—Cases of cruelty, phone. Inspector Russell, 1921; secretary, L1732.

Announcement.—Mr. Geo. W. Fugle wishes to announce that he has returned to Victoria after a brief absence, and is again prepared to do practical piano tuning and repairing; also wishes to thank his many patrons for their past patronage and a continuance of same, and trusting he will have the pleasure of meeting many of the new comers Victoria feels so proud of. Communications by mail or phone, or the same may be left at Fletcher Bros' music store, Government street, will receive prompt attention. Phone L821 or P. O. box 309.

Lewis Street Machine Works, James Bay, just opened; practical mechanics prepared to do all kinds of repairs. Ring up L1511; or leave orders at 516 Bastion Square.

Ate a Bean.—It was nice so he ate more. The reason for being so nice was, because they were baked at home in a Brown Brown Boston Baked Bean Pot. In 4 sizes, 20c, 25c, 35c and 70c. R. A. Brown & Co., 1302 Douglas Street.

A regular slaughter of high class stock for 16 days.—Our landlord says: "Your rent goes up 100 per cent. on September 21st." We have decided to sell the entire stock in the 16 days left. We advise come early and in the forenoon, if possible, as you can take your time picking out what you want. Every article reduced 25 to 50 per cent. Remember high class goods at less price than common goods. The place, 742 Fort street. W. G. McLaren & Co.

Ladies' Tailor.—Wm. Stewart, men's and ladies' tailor, room 5, Haynes Bldg., Fort street.

Contractors, Look!—CHOICE FIR DOORS, WINDOWS, GLASS, etc., in stock. R. A. Green & Co., Phone 3851. Shop at 1155 North Park street. Estimates free.

Hardy Perennials Flowers.—New seeds just arrived from Sutton & Sons, Reading, England. Plant at once for flowering next year. Wallflowers, Sweet William, Canterbury Bells, Shasta Daisy, Delphinium, Aquilegia, Coreopsis, Oriental Poppies, Primroses, Pansies, Hollyhocks, etc., etc. A. J. Woodward, 615 Fort Street.

Auto and Taxi.—Cab stand, good cars, good service, all hours. Corner Fort and Douglas Streets. Phone 2210.

Women's Auxiliary S. P. C. A.—A meeting of the committee of the society will be held at the Alexandra Club on Friday at 11 a. m. A full attendance is requested.

Oak Bay Permits.—The Oak Bay municipality building permits for August amounted to \$173,190, being about \$50,000 ahead of the same month last year. For the eight months of the year there have been issued permits to the value of \$755,509 as against \$392,202 for the first eight months of 1911.

Building Permits.—Building permits were granted this morning to Mrs. A. McNeill, for a house on the corner of Basil and Eugene, costing \$2,200; R. W. Claydon for a six-roomed house on Cambridge street costing \$2,500; D. A. McDonald for additions to a house on Washington avenue, costing \$1,350, and to Portab Singh for a stable on Alder street.

August Fire Loss.—Fire Chief Davis reports for August a fire loss on buildings and contents of \$1,425, two-thirds of that sum being on the fire at the Victoria Steam Dye Works, Fort street, and on a cottage on King's road, the actual adjustments have not been made. There were 23 alarms in August, the brigade travelling 43 miles, laying 6,450 feet of hose, and using 444 gallons of chemical.

Healey Arbitration.—Another sitting of the arbitrators in the Healey arbitration, arising out of the 5000 waterworks, was held this afternoon. From the point of view of the city it seems improbable another offer will be made, but as the margin between owner and the city is so great it is uncertain whether it will be possible to reach an agreement without reference to the award of the arbitrators after protracted proceedings.

August Police Return.—Convictions in police court for last month were 282, sent for trial 7, discharged 15, safe-keeping 64. Patrol calls numbered 323. The summary of cases included: Assault, 6; auto by-laws, 9; cruelty to animals, 4; city by-laws, 22; drunks, 133; fighting, 12; gambling, 14; obscene language, 5; false pretences, 5; stealing, 13; safe-keeping, 64; liquor license act, 1; fortune telling, 1, and fraud, 1.

Women's Auxiliary Meeting.—The regular monthly meetings of the Women's Auxiliary of the Provincial Royal Jubilee hospital will commence on Friday next at 2.30 instead of the last Tuesday in the month. The meeting will be held at the Board of Trade rooms, Bastion Square, and it is hoped that all interested members will be in attendance in order to get acquainted with the work which will be outlined for the ensuing months. Mrs. Ballantine, Oak Bay P. O., will be glad to receive the names of newcomers who wish to join the organization, and the secretary or a substitute will be in the workroom of the society at the Jubilee hospital from 2 to 6 on Fridays in order to meet those interested in the work, and to receive the reports of CHAIRMAN.

## TWENTY-FIVE YEARS AGO TO-DAY

(Victoria Times, September 2, (Friday) 1887.)

The amateur sportsmen who have been imperilling the lives of our citizens in the parks since the shooting season opened, by firing indiscriminately at every bird they saw are warned that in addition to the possibility that they may be guilty of manslaughter, they are transgressing the law in shooting within the corporation.

The inland revenue returns for the year ending 30th June last amounted to \$6,978,054.01. For August in Victoria, \$4744.88.

The pipes are now being laid for the Esquimalt waterworks. It is expected they will reach the dockyard ere the season closes.

The Vancouver city council has decided to place sixty electric lights in that city.

T. Denny was re-elected president of the Victoria Athletic club last night. J. Hawthornthwaite, vice-president; J. W. Weiler, secretary; Charles Gardner, treasurer.

Sir William Dea Voex, late governor-general for Newfoundland, arrived in Victoria on Thursday night on his way from England to Hong Kong, of which dependency he has been appointed governor.

The hog inspection came into force to-day. The system adopted is to take a stout rope's end and hit the porky a furious blow on the head, which makes his porkship squeal. If that be shrill and a proper tone there is no lurking disease. The chorus set up to-day by 57 of these grunters had the effect of frightening weak-nerved women.

Members of the tug union walked ashore to-day asking an increase of wages paid. There was a conference with Mr. Dunsmuir this morning, at which the men were told circumstances did not warrant an increase. They then walked ashore, the watchmen being in charge of the vessels Pilot and Alexander.

Natural History Society of British Columbia.—The society will hold a meeting on Monday, September 2, at 8.30 p. m., in the Friends' hall, Courtney street, opposite the Alexandra club, close to Douglas street.

Women's Industrial Exchange.—A special meeting of shareholders of the Women's Industrial Exchange will be held on Thursday, September 5, at the Alexandra club at 3 p. m. It is hoped shareholders will accept this intimation.

Carpenter Injured.—While working on the third floor of the Belmont block, Government and Humboldt streets, this morning, Harry Griffiths, a carpenter, was struck on the back by a heavy timber which fell from above. His ribs were fractured and he was taken to the Jubilee hospital, where he is now progressing as well as the physicians can hope.

Graduate Nurses' Meeting.—A mass meeting of the graduate nurses of the province will be held in Christ Church schoolroom, Vancouver, Tuesday, September 10, at 3 p. m. The object of this meeting is to organize a British Columbia Graduate Nurses' Association for the purpose of obtaining registration for the nurses of the province. It is hoped all who can possibly attend will be present.

Skull Discovered.—In excavation work on Transit road, Oak Bay, last week for the new main trunk sewer which Naylor Brothers are building, about four feet from the surface of the roadway, a human skull and a few other bones were discovered. They are believed to have belonged to an Indian. The bones on one side were fractured, but whether prior to death or by the pick of a workman, it is impossible to determine.

Complete Part of Contract.—On Saturday, the last day according to the contract for the completion of the section of the Oak Bay main trunk sewer from the intersection of the Foul Bay road and the Willows road, to Bowker creek, the contractors completed this section of concrete pipe, and are in a position to turn it over to the council. This is the portion of the pipe nearest the city end of the northeast sewer.

Women's Department at Fair.—Miss Edwards, of Royal Oak, will have charge of the women's department of the agricultural fair, which will be shown in the Woman's building at the fair grounds, and will be made one of the most attractive exhibits at the exhibition. One of the interesting features which it is hoped to be able to add to the exhibition is the school exhibit which is now being shown at the big annual fair at Toronto, and which would form a delightful addition to this part of the display.

Specialist in lock repairs, Yale locks, keys. 610 Pandora street. Phone 2439.

## Complete Edison Service

See What It Offers You

Another verse or two of the songs you like, a waltz or two-step that is long enough, a monologue that gets somewhere and musical selections played as the composer intended, not cut or hurried.

That is what

Edison  
Amberol  
Records

offer

These records play four and one-half minutes, taking selections never before offered in record form.

All Edison Phonographs play both Amberol and Edison Standard Records. Have you an Edison?

Why not take advantage of the opportunity offered by our newly stocked show rooms? We are showing some of the finest examples of these machines ever displayed in Victoria. Let September bring you the joys of a perfect Phonograph—an Edison.

Prices as Low as \$19.50; as High as \$250, on Excellent Terms

nearly seven hundred gathering at the picnic grounds during the day to share in the good things in the way of sports, dancing, and edibles that had been provided by the organizers. The committee having charge of the arrangements was composed of representatives from Nanaimo, Ladysmith, and Victoria, and although the original programme of sports had to be discarded on account of the somewhat unpromising weather of the early morning, an impromptu programme was followed out with much success. The special train which left Victoria at 8.30 yesterday morning was well filled with Oddfellows and their families, who, joined at Duncan by the contingents from Nanaimo and Ladysmith, at once set about preparing for the picnic luncheon which was partaken of shortly after 12 o'clock. Sports commenced at 2 o'clock, and consisted of foot races for men, women and children, while other events were the potato race, the nail-driving contest, and tug-of-war, Nanaimo winning in this last event. Throughout both afternoon and evening dancing was held in the Agricultural building, the Duncan orchestra supplying the music, and the prize-giving late in the afternoon was an interesting feature of the proceedings, most of the awards going to Victoria competitors. The special train which left at 11 p. m. for Victoria was waited for by the majority of the plimickers from this city, who stayed until the last possible moment to enjoy the dancing and other amusements which had been provided for the delectation of the pleasure seekers, the day having passed off under the most favorable weather conditions, barring a light shower at 2 o'clock.

## BREAK EVEN ON LABOR DAY—

### KAUFMANN WINS FIRST IN 11 INNINGS

In Second Game Sir Richard Gets His—McCreery Who Rescues Not Much Better—Seattle Doubles on Tacoma

**YESTERDAY'S RESULTS.**  
 Victoria, 2; Spokane, 1.  
 Spokane, 11; Victoria, 2.  
 Vancouver, 4; Portland, 0.  
 Seattle, 16; Tacoma, 8.

Spokane, Sept. 2.—Spokane and Victoria broke even in their double-header here to-day. The visitors went eleven innings to win the first. In the second game Kaufmann went back but was hit hard and relieved by McCreery in the third inning. He fared little better. Strand was steady after the third inning. Scores:

**YESTERDAY'S RESULTS.**  
 Victoria, 2; Spokane, 1.  
 Spokane, 11; Victoria, 2.  
 Vancouver, 4; Portland, 0.  
 Seattle, 16; Tacoma, 8.

Spokane, Sept. 2.—Spokane and Victoria broke even in their double-header here to-day. The visitors went eleven innings to win the first. In the second game Kaufmann went back but was hit hard and relieved by McCreery in the third inning. He fared little better. Strand was steady after the third inning. Scores:

Portland	2	4	0		

**Batteries—** Hyram and Lewis; Steiger and Harris.

**BASEBALL NOTES**

Fitzsimmons, the St. Mary's College boy who signed with Victoria belongs to the local club no more. His release has been purchased by Hop Hogan and he is still with that club. Portland papers to hand state that he is a big fellow and handles himself well. It also states that he refused to report to the Victoria club.

Eppa Rixey, the phenomenal pitcher with the Philadelphia Nationals, is so tall that he can't sleep in a Pullman berth. He was forced to double up when travelling and finally a scheme was hit upon which consisted of taking the position out between berth and letting him occupy two of them. And the club isn't making a mint of money, either, but Charlie Doolin figures that he is worth it.

Eddie Burns, the smart little catcher who was with Mike Lynch's bunch last season is now catching for Montreal in the International league. It will be remembered that Victoria won one of its precious forty last year from Eddie. It was one day when Victoria hit every pitcher that Mike had with him and beat them all in the same game. It was in the ninth and Tacoma had tied the score. Mike, having no alternative, sent his catcher in to do the pitching and the first ball pitched was sailed over the fence by Devost which gave the locals the game.

Pete Morse, former short stop with the Tigers is playing ball back in the "little" International in Duluth. Pete has been doing some pitching back there.

**BEACON HILLS TAKE TWO GAMES FROM BAYS**

By taking a double-header from the James Bay baseball nine on Saturday, the Beacon Hill boys retain the senior championship of the city. The scores of the games were 12 to 9 and 10 to 9. In the former the Bays were beaten only when Holmes weakened in the seventh and allowed six runs to cross the pan, two of these, however, being due to poor support in left field. In the second game Bob Steele and Townsley composed the Hill battery for a shut-out. The grounds were in bad condition for baseball. The Hills have now won the city senior and intermediate championships.

**Y. M.'s HAD GREAT HIKE TO DUNCAN**

The globe trotters of the Y. M. C. A. camp went through with their hike to Duncan during the holidays despite the threatening weather on Saturday. A start was made from the Gorge at 8.45 o'clock and it was 1.30 when the hikers hove into sight of Goldstream. The night was spent there in their blankets under the spreading trees. After a healthy breakfast the boys once more took to the road at 8 a.m., and arrived at Shawanigan Lake at 4.15 o'clock, well drenched, having run into a heavy shower at Mill Bay. It was necessary to dry out at Shawanigan, and past day Duncan was made about 2 o'clock. With plenty of time on their hands before taking the train back to Victoria a swimming party was formed and a dip was taken in the Cowichan river. In the words of those who made the trip, "It Was Some Hike."

**EASTERN LACROSSE RESULTS.**

**Big Four League.**  
 Toronto 5, Nationals 2.  
 Irish Canadians 12, Tecumsehs 8.  
 N. L. U.  
 Cornwall 7, Montreal 5.  
 Capitals 7, Shamrocks 2.

## MANN CUP WILL STAY AT HOME

VICTORIANS NOT EQUAL TO TEAM HOLDERS

Score 8-2—"Boss" Johnson Saves Score From Being Doubled

Vancouver, Sept. 2.—The Minto cup is gone and the baseball pennant is slipping from its moorings, but the Mann cup still occupies a prominent place on the Vancouver A. C.'s cup-board cabinet. For the third consecutive year the wearers of the winged "V" have captured the amateur championship of the Pacific coast, yesterday's victory over the crack Victoria twelve giving the champions the title for another year. The score was 8-2, and as the local club holds the Mann cup it will now be up to some eastern twelve to come along and compete for it. The C. N. R. players of Winnipeg will probably be the first to come west in quest of the cup, and on the form the champions here have been showing it is more than likely that the challengers will return home empty-handed.

Weather conditions yesterday were more suited to football than lacrosse, but despite the heavy handicap of playing on a sodden field, inches deep in water and with the rain coming down in torrents the coast teams gave a most creditable display. The players found it difficult to hold their feet, and many passes went wide of the mark as a result, but on the whole the exhibition was first-class, and the champions won on their merits.

**Little Rough Play.**  
 With the exception of the fourth quarter, when one or two players showed a tendency to mix it, there was little rough play. When the fourth quarter opened up the Capitals resorted to heavy checking, and a number of players decorated the penalty bench, while a mixup occurred in which the referee, a couple of players and a couple of husky policemen participated.

Then followed a general mixup, but the excitement soon subsided and the game proceeded.  
 The Vancouver home played a steady game, and but for Johnson's remarkable work in goal for the Capitals the score would have run into double figures. Johnson's work was brilliant. He made a mistake in the third quarter in fouling a local player right under the referee's eye and drew a penalty.

**Goal Summary.**  
 First quarter—1, Vancouver, Murray, 5 minutes; 2, Vancouver, Murray, 9 minutes.  
 Second quarter—3, Victoria, McInnes, 1 minute.  
 Third quarter—4, Vancouver, Murray, 6 minutes; 5, Victoria, Brynjolfsson, 1 minute; 6, Vancouver, Gunn, 11 minutes; 7, Vancouver, Crookall, 15 seconds.  
 Fourth quarter—8, Vancouver, Gunn, 4 minutes; 9, Vancouver, Gunn, 12 minutes; 10, Vancouver, Davis, 2 minutes.  
 Penalties—First quarter—Gunn, (V. A. C.), 5 minutes; Burns (V. A. C.), 5 minutes; Dakers (Victoria), 5 minutes. Third quarter—Johnson (Victoria), 5 minutes; Sweeney (Victoria), 5 minutes; McGregor (Victoria), 20 minutes.

**The Line-ups.**

Vancouver.	Goal.	Victoria.
J. Davis	Goal.	Boss Johnson
Paynter	Point.	Sweeney
Burns	Coverpoint.	Dakers
McQuig	First Defence.	(capt.) Okell
Donohue	Second Defence.	Taylor
Matheson	Third Defence.	J. Johnson
Fierheller	Centre.	McCart
Gunn (capt.)	Third Home.	McGregor
Murray	Second Home.	McGinnis
Crookall	First Home.	Baker
Wright	Outside Home.	McDonald
W. Davis	Inside Home.	

**UNSPORTSMANLIKE GAME WON BY CUP HOLDERS**

Vancouver, B. C., Sept. 2.—Saturday's lacrosse match between Vancouver and New Westminster was marred by another free-for-all fight in which players of both teams participated. New Westminster won by a score of 4 to 1, in one of the poorest displays of the season.

Referee Jim Kavanagh lost control of the game within a few minutes of the start and the players roughed it all through. Neither team displayed championship form and the players devoted most of the time to fighting and tripping with the result that it was a steady procession of offenders to the penalty bench.

**Free-for-All Fight.**  
 With New Westminster leading by a score of 2 to 1 in the third quarter, LaLonde and Gifford, who have clashed in the last two matches, came together while playing on the ball and both started swinging their sticks over each other's head. New Westminster's supporters jumped into the fray, followed by others, while players all rushed together, and for a few mo-

# MEN'S FALL SUITS ARE HERE

These Fall goods are very distinctive in character and they will receive the approval of critical men who avoid the commonplace in clothes and require individuality in a large degree. They cannot be judged by the standards of ready-to-wear clothing of the usual sort. In their perfect fit, fine tailoring and exclusiveness they offer the advantages of custom made apparel, differing only in their inexpensiveness.

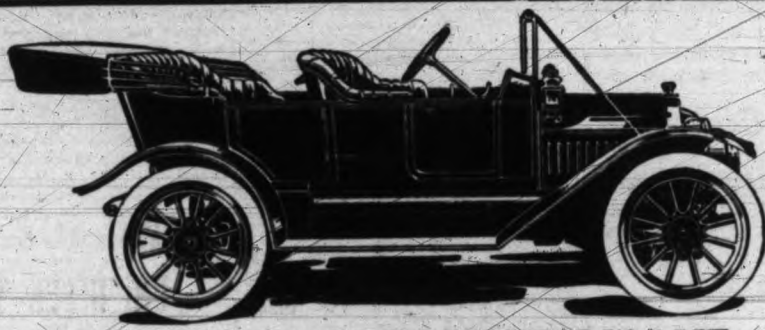

Lest these suits be judged by their modest cost, we wish it understood that they are meant, not for men who purchase "cheap" clothing, but for those whose first requirement is quality and who would consider "cheap" clothing dear at any price. Men of all ages will find appropriate and desirable styles in our showing of Fall Suits—garments identified by their correct form and fine quality.

## DECISION GOES

## TO MANDOT

Joe Rivers Loses in 20 Rounds  
—Result a Popular One

Los Angeles, Sept. 2.—Outgeneralled and outfought in nearly every round by "Joe" Mandot, of New Orleans, "Joe" Rivers, the Los Angeles lightweight, lost the decision to the visitors at the end of their twenty-round bout at the Vernon Arena to-day. The Mexican aspirant to the highest honors in the lightweight class seemed a novice in the hands of the capable southerner, although he outweighted Mandot two pounds when they entered the ring. Rivers weighed in at 133 and Mandot at 135 pounds.

Rivers made a much poorer showing than he did against "Al" Wolgast on July 4. He appeared slow and only showed to advantage in the infighting, but in the closing rounds Mandot outfought him in the clinches.

Mandot solved Rivers' defence early in the bout, landing straight lefts to the face almost without return. In the eighth he began rocking Rivers' head with his left swings, and in nearly every one of the succeeding rounds followed this style. He showed remarkable ability in blocking and countering. The boys spent much of the time in clinches and referee Eytan was on numerous occasions compelled to pry them apart.

Rivers had a shade the better of it in only three rounds—the fourth, sixth and eleventh. In the thirteenth Mandot nearly closed Rivers' right eye with a left swing and in the succeeding round he punished the Mexican severely with straight lefts and rights. Mandot appeared to be tiring in the sixteenth and in a fierce sluging match at long range Rivers earned even honors for the round. The seventeenth was almost a repetition, Rivers rounding it toward the close and wrestling Mandot to the mat at the bell. The nineteenth was all Mandot's. Rivers tried his best to put away the southerner in the last round but Mandot eluded his rushes and swings.

The decision was popular, as the crowd rose to its feet and vociferously applauded at the close of the nineteenth round.

"Eddie" Campi, of San Francisco, had an easy controversy with Battling Chico, the local bantamweight. Campi never was in danger and outpointed Chico in every one of the rounds.

## TAG FIREMAN

## FLYNN WINNER

Motorman Miller Forced to Quit but Fought Hard

San Francisco, Aug. 2.—Making a cyclonic finish of a cautious fight "Punch" Jim Flynn was tagged winner of his battle with Charley Miller at Colma to-day when the big San Franciscoan refused to leave his corner for the sixteenth round. Miller gamely stayed through the fifteenth, then claiming that two ribs had been fractured and that he was hardly able to walk, he declined to respond to the call for the next round. The motorman's condition was plainly such that he could not continue and it was whispered at the ringside that the police were about to stop the bout.

With the exception of a few of the earlier rounds, Flynn outfought his former sparring partner and administered a severe beating to the championship aspirant. He closed Miller's left eye and drew the blood from the latter's face more than once. During the last five rounds he had the big fellow wobbling a portion of the time and on four occasions nearly scored a knockout in dropping Miller.

Miller was willing to battle at all times up to the sixteenth and forced the fighting through many of the rounds. He stood and exchanged punch with Flynn and started several rallies that brought the crowd to its feet yelling. Flynn used an effective right uppercut, jolting Miller with head punches and landed frequently on the body, but took few chances in registering his blows.

During the tenth round, after Miller had beaten Flynn around the ring in one of the sensational rallies, he looked at the fireman and said, smilingly: "Gee, Flynn, I've got to give it to you. You're a tough guy."

Flynn weighed about 182 pounds and Miller was down to 218 ringside. Spider Kelly refereed.

## FIELDER TOO BUSY FOR LEAGUE JOB HERE

Portland, Ore., Sept. 3.—Fleider Jones, once boss of the famous Chicago White Sox, world's baseball champion, plainly intimated to-day that when his term of office expires on December 31 he will not permit his name to be used as a candidate for re-election.

Stress of business which will demand his entire attention, together with the too arduous duties of looking after the administration of a baseball league, are the two principal reasons Jones advances for his retirement from the presidency.

## LONG SWIM WON

## BY W. STANYON

Takes Lead From McNeill at  
Crow Baker Point—  
Lady Finishes

Over two minutes ahead of his nearest rival, whom he passed at Crow Baker's boat house, W. Stanyon, an Old Countryman, won the long distance swimming race to the Gorge yesterday in grand style, finishing as strongly as when he entered the water in James Bay. J. McNeill led the way until Stanyon began to sprint on the home stretch. McNeill was a good second. The distance between second and third place was considerable.

Most remarkable was the swimming of Mrs. J. Bell, who took fourth place, being beaten by Blaney Scott. The lady swimmer pressed Scott right to the line, crossing it 59 seconds behind and coming out of the water as fresh as when she entered. It was three-quarters of a mile from the finish when Mrs. Bell began to swim strongly. Scott and McNeill were well worn-out at the finish. Mrs. Bell seemed to enjoy the sport much more than the other competitors and was given a great ovation on reaching the public float, which was crowded to capacity, as well as the Gorge bridge and surrounding shores.

Those who finished and their respective times follow: 1. W. Stanyon, time, 71.30; 2. J. McNeill, time, 73.40; 3. B. Scott, time, 87.00; 4. Mrs. Bell, time, 87.50; 5. J. Hannah, time, 91.35.

At Point Ellice bridge another large number of people had assembled. J. McNeill reached this point first in 31.10 minutes, Stanyon in 32.30, Scott in 34.30, Hannah in 35.50, Spence in 40.00, and Mrs. Bell in 40.55.

Schultz and L. Godfrey were forced to leave the water before reaching the bridge, finding it too cold to continue. Godfrey was five yards behind McNeill when he was seized with cramps. Spence retired from the race at Deadman's Island.

The time made in this race was fast, considering that the water was without doubt chilly in streaks. Stanyon showed good judgment in picking his course and swam the best race.

## WOLGAST GETS

## BIG OFFER TO BOX

\$15,000 as His Share—Willie  
Ritchie May Come to  
Victoria

San Francisco, Sept. 3.—One of the largest purses tendered a boxer since Jeffries fought Johnson was hung up to-night by Eddie Graney, when he agreed to give Ad. Wolgast \$15,000 for his end of the money, win, lose or draw, to fight twenty rounds with Willie Ritchie in this city Thanksgiving day.

The proposition was made to Billy Nolan, manager of Ritchie, who said he was willing to take the best terms possible after Wolgast's slice had been set aside. Wolgast is in New York and it is expected that he will reply to Graney within a few days.

Ritchie's work is still in a plaster cast, but the doctors who are attending him say that he will be ready for the gymnasium again in about two weeks. He will have a challenge at the ringside tomorrow at Los Angeles for the winner of the Mandot-Rivers fight.

"If the winner of this trip will not meet Ritchie we will postpone our Canadian trip and invasion of New York," said Nolan to-night. "If these proposals are not taken up, Ritchie and I will leave in two weeks for Victoria, Calgary and Winnipeg, in Canada, where we hope to get short distance bouts. Then we will go on to New York, where we have been promised matches with Leach Cross, Packey McFarland and Matt Wells.

## JAMES BAYS HOLD

## FINE REGATTA

Flumerfelt Cup Won by the  
Messrs. Tuck, I. Y. Simpson,  
W. Day and W. S. Newitt

Messrs. E. Tuck, "Bill" Day, J. Y. Simpson and W. S. Newitt are the four lads who can now lay claim to the coveted Flumerfelt cup, which by outdistancing all their club rivals at the annual James Bay regatta on Saturday afternoon last they handily brought home. The crew stroked by J. Y. Simpson lost to the winners in the final heat by a length, after rowing a grand race, but had luck in not keeping on the course near the finish proved their undoing. Considering the climatic conditions which were none too favorable, the regatta was very creditable to the Bay club. The attendance, though small, was treated to good competition throughout.

While the club four races for the cup formed the main feature, much fun was forthcoming from the novelty races. The tandem canoe race in which Messrs. Summers and Ogden were upset at the starting line furnished the main comedy event. W. N. Kennedy, former single sculling champion of the coast, was both dingy racer, with Miss Sargison a partner in the mixed doubles, the latter figuring in three first events.

Kind Old Gentleman—"Don't you know where little boys go that smoke?" Willie Butts—"Sure, I do. Most of 'em goes out in the woods or back of the barn, but I ain't afraid. I smoke right in the street."

## LIKELY TO SUSPEND SERVICE TO MEXICO

Steamship Company Will Discontinue Sailings Until Trouble is Over

Announcement has been made that the Canadian-Mexican S. S. Co., lately turned into the Pacific-Canadian S. S. Co., intends to suspend the steamship service from Vancouver and Victoria to Mexico temporarily. The steamer *Lonsdale*, now bound to this port from Salina Cruz, is due on September 5 and will sail for the south again on September 15. With her sailing will conclude the service unless trade conditions better.

The disturbances in Mexico, which have upset trade in Salina Cruz, Acapulco, Manzanillo, and the interior, and the fact that cotton export from the Atlantic ports have secured all space are the factors which have led the operators of the line to arrive at this determination.

## HEAD LIGHTS

Late Sunday night the C. P. R. steamer *Teco*, Capt. Gilliam, left port for Clayoquot. She took out a number of passengers and considerable freight.

Bound for San Francisco the Pacific Coast steamship *Umatilla*, Capt. Reilly, will leave port to-morrow morning at 8 o'clock. A big crowd of passengers and a full load of freight will be taken south by the vessel.

From Prince Rupert, the G. T. P. steamer *Prince Rupert*, Capt. Johnson, will arrive in port to-morrow morning. She sailed from the northern port yesterday morning.

The steamer *Leelanaw*, which sails to-day will be one of the last three vessels to sail for that port with mail. The steamer *Senator* will sail for Nome on the 11th and the steamer *Victoria* on the 15th.

The time used is Pacific Standard for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The following story is told of Norman E. Mack, as related by himself: "On one of my trips to New York I had to visit a bank that is not very well known. I got mixed up in my sense of location and finally I asked a newsboy to direct me to the building, telling him that I would give him half a dollar for his services. He agreed and led me to the bank, which was only four doors away. 'That,' I remarked, as I gave him the money 'was half a dollar easily earned.' 'I know it,' he said, 'but you must remember that bank directors are paid high in New York.'

Above the great editor's desk appeared the motto: "Be accurate." A motto that was hammered into every member of the staff with painful insistence.

C. P. R. West Coast Steamer to Perpetuate Name of Noted Indian Princess

## MAILS DELAY LINER LEAVING THIS PORT

Monteagle Not Sailing Until To-morrow Morning—Three Other Ships Going

Owing to the late arrival of the Eastern mail, the R. M. S. *Monteagle*, Capt. Davison, will not sail from this port until about 8 o'clock to-morrow morning for the Far East. The steamer is now lying at Vancouver awaiting the arrival of the train which has aboard the mailbags addressed to the Orient ports. It is estimated that she will get away from the Terminal City shortly after midnight to-night, and she should dock here early in the morning. The last two C. P. R. liners departing for the Far East were successful in getting away from the port before the *Monteagle* arrived, making the passage without any delays.

When the *Monteagle* leaves she will not only have her holds loaded to their capacity with general freight, but she will also have her saloon passenger accommodation filled. The Vancouver office sold out all the staterooms on the liners before she arrived here from the Orient. The list includes a large number of missionaries who are returning to their fields of labor, and others who are leaving on their first mission to the Orient. There are also a great many tourists who are going through to Hongkong, where they will join steamships going to England and Australia.

The cargo being taken out by the *Monteagle* includes a large shipment of wheat, which was loaded time, the steamer *Princess Ena* and taken to Vancouver, where the *Monteagle* loaded it. She has about 3,000 tons of wheat for Hongkong and Shanghai. Other items on her manifest are condensed milk, sewing machines, machinery, phonographs, lumber and fish.

The sailing of the *Monteagle* to-morrow will make the fourth liner which will leave this port on Wednesday. The *Osaka Shosen Kaisha* liner *Panama*, Capt. Kanoo, and the *Teu-der*, Capt. Farwood, of the Blue Funnel line will both sail for the Orient before noon, and in the evening the *Makura*, Capt. Gibb, will sail for the Antipodes.

To-morrow afternoon the steamer *Venture*, Capt. Parks, of the Boscowitz Company, will arrive in port from Bella Coola. She will sail for the north again the same evening.

With a good crowd of passengers and considerable freight the C. P. R. steamer *Charmar*, Capt. Brown, left port last night for Nanaimo and Comox.

forming a like service on vessels which do not go to Gray's Harbor. This plan has proved most unsatisfactory to the San Francisco unionists, according to Mr. Madsen. From the beginning of the trouble, he says, the Californians have been strongly in favor of refusing to work cargoes of the steamers. They do not believe in the fine system put in force at Portland, and never have employed that means at San Francisco.

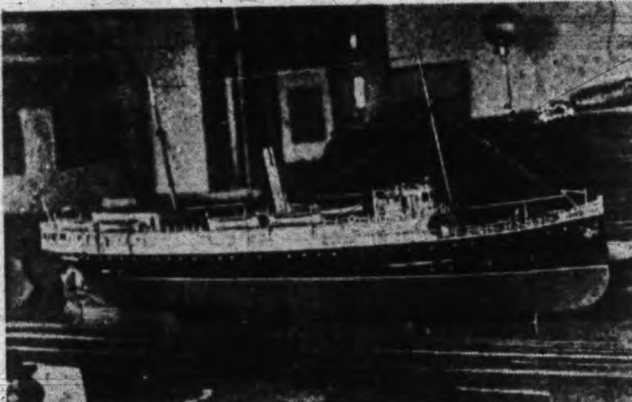

The assertion is made that a decision practically has been reached that the Californians are right in their contention. Before any drastic measures are adopted, however, the question will be submitted to a vote of the local at Portland. In that event any steamers coming here from San Francisco with cargoes and intending to leave for Gray's Harbor to load lumber for the return trip will be unable to have their freight discharged by unionists.

## EXTENDING FISHERY INTERESTS IN SOUTH

Prince Albert in From North—Prince Rupert Goes Out—Princess May In

After a miserable trip to northern British Columbia ports, including a special run to Alford Bay and Skidegate, on the Queen Charlotte Islands, with machinery and material for the new plans of the Doughty interests, the G. T. P. steamer *Prince Albert*, Capt. Donald, arrived in port early this morning. Officers of the vessel report experiencing heavy rains almost throughout the entire voyage from Prince Rupert south. While at the islands it also rained heavily and the temperature was low.

Capt. Donald said this morning that the B. C. Fisheries, Ltd., had built a new dock at Skidegate and had just started to erect a new dog-fish oil plant on it to replace the old one. Part of the machinery for this plant was taken there by the *Albert*, and it is the intention of the company to have one of the finest dog-fish oil plants in the world. Machinery for the Alford Bay fertilizing plant was taken north by the *Albert* and it will not be long before this station is in operation. The cannery at Alford is almost ready to

This picture is a reproduction of a model of the West Coast vessel made by Mr. Dentith, timekeeper at the C. P. R. The model is equipped with machinery and has been tried out and found to develop a fair speed. The model has been purchased by the B. C. Marine Railway, builders of new Princesses.

British claim to a portion of this coast against the Spanish case was first founded. Maquinna was the chief who, in 1803, captured the American ship *Boston*, at anchor in his domain in Nootka Sound, and massacred the crew with the exception of two men.

One of the men whose life was spared during the massacre named Jewitt, the armourer, because of his usefulness in making weapons, always referred to the Chief Maquinna as the king and his daughter as the princess. At the time Jewitt was taken by the Indians the Princess was 16 years of age.

## STEVEDORES TO BOYCOTT.

Will Refuse to Load Coasting Steamers on Grays Harbor—Trouble Ahead.

Portland, Ore., Sept. 2. — Unless the Gray's Harbor Stevedore Company enters into an agreement in a few days to employ union men to load the coasters running in there, J. A. Madsen, one of the head officials of the Longshoremen's Union on this coast, intimates that a big boycott against the owners of the vessels will be inaugurated. If a satisfactory settlement should not be reached with the company he looks for the fight to be started within a few days.

The plan proposed to bring the company to terms is for the union men at Portland and San Francisco to refuse to load or discharge any of the steamers which go to Gray's Harbor to load lumber for California ports. On the up-trip from San Francisco the steamers have been coming to Portland and then proceeding from here over to the Harbor to take on and for some time the Portland longshoremen have been penalizing such steamers by collecting a charge of 10 cents an hour more for discharging their cargoes than for per-

Dated the 5th day of August, 1912.

### Municipality of Esquimalt

All persons who are qualified voters for the first election of the Municipality of Esquimalt are requested to register their names on or before September 12th next, at Room 220 Pemberton Building, Victoria, between the hours of 10 a. m. and 1 p. m. and 2 to 4 p. m.

The qualifications for voters at the first election are as follows: "A British subject of the full age of 21 years, having lived in the district three months immediately preceding August 15th, 1912, and registered of the said property within the boundaries of the municipality of the value of at least one hundred dollars."

A. B. ELLIS,  
Returning Officer.

### IN THE SUPREME COURT OF BRITISH COLUMBIA.

In the Goods of Lizzie Denham Chandler, Deceased.

TAKE NOTICE that Probate of the Will of Lizzie Denham Chandler, late of Colquhoun, B. C., has been ordered to issue to Roy Dunsterville Chandler, the executor in the said Will named.

FURTHER TAKE NOTICE that all persons having any claims against the Estate of the said Lizzie Denham Chandler are required to send full particulars of the same, duly verified by declaration, to the undersigned on or before the 15th day of September, 1912; and all persons owing any money to the said deceased are requested to pay the same forthwith to the Executor, Roy Dunsterville Chandler. After the 15th day of September, 1912, the said Roy Dunsterville Chandler, will proceed to distribute the Estate of the said deceased according to the said Will, having regard only to the claims of whom he shall then have received notice.

Dated this 17th day of August, 1912.  
RODWELL & LAWSON,  
Solicitors for the Executor, Roy Dunsterville Chandler, whose address for service is at No. 515 Government Street, Victoria, B. C.

### NOTICE

Navigable Waters Protection Act.

Notice is hereby given that Norman Hardie and Marion Whitworth Hardie, of Victoria, British Columbia, are applying to His Excellency the Governor-General of Canada in Council, for approval of the area plans, site and description of works proposed to be constructed in West Bay, Victoria, B. C., and being the lands situate, lying and being in the City of Victoria, described as part of One Acre Block of Section Thirty-two (22), Esquimalt District, as shown upon a plan annexed to Certificate of Title No. 21516, and have deposited the area and site plans and the proposed works and a description thereof with the Minister of Public Works at Ottawa, and the duplicate thereof with the Registrar General of Titles in the Land Registry Office at the City of Victoria, British Columbia, and that the matter of the said application will be proceeded with at the expiration of one month's notice from the time of the first publication of this notice in the Canada Gazette.

Dated this 17th day of July, A.D. 1912.  
NORMAN HARDIE,  
MARION WHITWORTH HARDIE,  
Petitioners.

## THE FISHERY CRUISERS SHOULD BE BUILT HERE

Action of Dominion Government in Giving Contract to Dublin Firm is Deeply Resented in British Columbia

The report that the Dominion government has awarded a contract to the Dublin Dockyard Company for the construction of two fishery protection cruisers for service in British Columbia waters was received with dismay in this city and on the mainland. There is no doubt that the Dublin firm must have submitted the lowest satisfactory tender, but the economy of buying in the cheapest market in the circumstances is highly questionable. There never will be an extensive shipbuilding industry on this coast if the Dominion government sends its orders across the Atlantic, and the Victoria Board of Trade, which has been giving some attention to this matter of late should unite with the Vancouver board and send a sharp protest to Ottawa.

No Longer Canadian.  
The situation seems to be that the government at Ottawa has become so imperial that it has ceased to be Canadian. The case for British Columbia was strongly presented by a prominent Vancouver shipping man, on Saturday, who said:

"It is stated that the Dublin Dockyard Company are experienced in this class of work. That may be so, but I venture to say that actual experience in building fishery cruisers is not absolutely necessary in order that a shipbuilding firm may be able to follow and properly interpret plans and specifications."

"The other excuse is that the Dublin firm bid very much lower than any Canadian firms. Regarding this point it would be interesting to know by what line of reasoning a government could arrive at the conclusion that it is practical economy to export its own money to an outside country, in return for ships built entirely in that outside country, the entire amount of the purchase price having been put into circulation in that country, with all its attendant benefits, the vessel being then delivered free of duty or benefit to the purchasing community."

"On the face of it, this would appear at first glance a good bargain, namely, buying in the cheapest market. But is it so in actual practice?"

Others Aspects.  
"It is not as well to look into the question of the various trades and manufacturing industries that are engaged in the building of a ship."

"The whole question is summed up in the sentence, 'circulation of money.'"

"Into the construction of a ship is practically embodied the product of every branch of trade. We have draftsmen, anglers, riveters, blacksmiths, boiler-makers, cooper-smiths, machinists, pattern-makers, moulders, laborers, teamsters, electricians, office help, brass finishers, painters, joiners, ship carpenters, plumbers, glaziers, oxy acetylene operators, chemists, toolmakers, caulkers, galvanizers, crane-men, furniture makers and finishers, upholsterers, mattress makers, carpet layers, sheet metal workers, chain makers, wire workers, dock hands, riggers, boat builders, steamfitters, etc."

"Then we have a myriad of manufacturers and supply people, the actual shipyard being merely the clearing house for the various industries that enter into the construction of a vessel, for, without exception, every class of industry, trade and supply house in the community is drawn upon, either directly or indirectly before the vessel is completed and delivered."

"Is it not reasonable that such vast possibilities should be conserved and encouraged within the Dominion?"

We Have the Equipment.

"The question then arises that we have not the necessary equipment. That can be easily answered. British Columbia alone has already had the equipment to build the Princess Royal, the Point Grey, the Princess Beatrice, the Point Ellice, the Madge, the North Vancouver Ferry, the Lillooet, the Vancouver, several transfer barges and now the Canadian Pacific Railway Company is having a large steel vessel built in Esquimalt for the West Coast Service."

Besides these vessels a great number of repair jobs of vast magnitude have been carried out in British Columbia to steel vessels."

"A very serious aspect of the case is this. A vessel is built in Britain, every particular, ready for sea, with all furnishings, crockery, bedding, cordage, in fact finished. This vessel is allowed to enter Canadian waters and is placed on our coastwise trade. In direct competition with home-built vessels and she does not pay one cent of duty and at the same time enjoys all the privileges of home-built vessels in the way of harbor improvements, buoy service, lighthouse and beacon service, legal protection, and yet at the same time she is permitted to practically legally smuggle into the country all her furnishings and equipment, which in the case of home built vessels, would either have to pay duty if imported or pay a protective price if home manufactured. In other words, the British-built vessel comes here to participate in the benefits to be derived by operating in our waters, paying no duty, having distributed not one cent in our country during and for her construction, brings in all her equipment free, and then goes into active competition with a home-built vessel, which has had to pay the Canadian scale of wages, pay duty on some of the identical articles which in the British-built vessel have entered free of duty, and also pay the enhanced prices for home-made articles, under a protective tariff, which in the British-built vessel have also come in without duty."

"This seems and is manifestly unfair and unjust. Glance over the tariff and you will find protective duties on innumerable articles that can and are manufactured in this country, so that, if a person desires to purchase away

from home he will have to pay accordingly in the shape of duty for his fancy."

"If it is necessary to protect these various manufacturers why should not shipbuilders enjoy a similar protection?"

Favors Bonus.

"If the spirit of patriotism and Imperialism is so deep in the breasts of the people that they do not wish to raise a protective tariff wall against Britain in the shipbuilding industry, well and good, let another course be taken and let patriotism take another form. By all means let British ships enjoy the privileges they now enjoy, but let there be a bonus given to encourage home shipbuilding, a bonus sufficient to encourage shipbuilders in Canada to lay down larger and more efficient plants, plants large enough that they may be attractive to the class of labor most efficient in this work, and thus build up in Canada an industry that will thrive and in thriving set up such new avenues of trade as will serve to eventually build up the general industries of the country."

"We have the coal, the iron, the transportation facilities, and with the greater development of the business we will attract in due and inevitable course of time skilled men to operate it successfully, and then in the natural passage of time the young men of our country will be enabled to engage in and thoroughly learn to be as skilled as the imported men."

Why Not.  
"At one time Canada built wooden ships for the world, so why should she not at least build steel ships for herself?"

"As regards government vessels, the money spent on these ships is ours, the ships are for us, so why should we not derive all the benefit that would accrue in the construction of these ships?"

"A hundred thousand dollars sent to a foreign country for a ship surely cannot benefit our country as much as one hundred and fifty thousand dollars spent in our own land for the ship—in other words, our own money spent in our own country for our own ship."

Another and most important point: By duly encouraging the erection and maintenance of large shipbuilding plants in our own country we are building up a protection for ourselves in time of trouble, in the form of adequate repair yards, yards which would even redound to the benefit of the Imperial government, so that in building up our own industries at the expense of apparently of Britain we are in reality building up a protection for Britain in the shape of such repair yards that she may easily require in the event of trouble in Pacific waters, and also even on the Atlantic seaboard."

Roasts the Government.  
"The government should let the country know definitely as to whether it has any intention of building any of its vessels in Canada, for it is certainly doing a great hardship in calling for general tenders, entailing great expense on local people, accepting their deposits and then awarding the contracts to British builders. It is to be supposed that the government knows well that a tender cannot be prepared without the expenditure of large sums of money and the occupation of all the best and most high-priced talent in a yard, several weeks being consumed in getting out quantities and prices. It is not very encouraging, after all this expensive effort, to be calmly set aside in favor of an outside concern. As a consequence it looks as if the government were merely asking home wards to bid in order to give an otherwise ignorant or incompetent departmental head the necessary data upon which to place the order elsewhere. In other words, Canadian builders are beginning to regard the government procedure as a parallel to a dishonest trader who uses the other man's figures for the purpose of beating down the other fellow."

"It is now high time for the government to come out in the open and declare its policy in this regard, in saying that they definitely will not encourage home industry or that they will do something definite in the way of an adequate bonus."

"It is an astonishing fact that in government specifications it is expressly stipulated that if any parts of the vessel are imported, and such parts are subject to duty, the duty must be paid thereon. Can anything more iniquitous be imagined right in the face of free entry of British built vessels entering our waters free?"

By washing old paper money by machines which have just been perfected, the United States treasury expects to save about \$1,000,000 yearly.

## UNION MEN PARADE IN LARGE NUMBERS

PAINTERS' UNION WIN  
WITH ATTRACTIVE FLOAT

Electrical Workers and Bricklayers Also Placed—Effective Craft Designs

The honors in the trade unions parade yesterday fell to the Painters, the Electrical Workers being second, while the Bricklayers were third on the list.

These were the placings for the decorated floats, although the judges, Acting Mayor Okell, Aldermen Dilworth and Baker, desire it to be stated that the decision was arrived at with great difficulty, and that they wish to congratulate the other competitors on their displays, particularly commending the Amalgamated Society of Carpenters and the Longshoremen. Judging took place at 11:30 a. m. at the corner of Johnson street and Blanchard avenue.

The Painters' and Decorators' Union, with an artistic but not elaborate display, showed men at work under a canopy, hung with floral baskets, the whole surmounted by a dome. Their society's name was announced on a pallet in front, and with a delicate blending of colors they secured an admirable effect.

The Electrical Workers, Local 230, had a much more ornate display. It represented the apparatus required in generating current, dynamos, armatures, batteries, and all, and above were two poles carrying wires. Under a canopy sat two telephone girls engaged in receiving calls, and the whole made up an excellent picture.

"The Bricklayers' and Masons' showed the process of house construction, a party of men adding bricks to the side as they moved in the procession. A gigantic trowel carried before their ambulating members marked the badge of their trade."

The Amalgamated Society of Carpenters and Joiners relied on a covered float in which men were busy at the craft, sawing, planing and shaping lumber. They believed in the old advice about advertising, and round the edges were remarks about the advantages of the union, whose universality was emphasized by a globe on the roof of the display. Their members also carried banners illustrating different features of the unions' work, and the benefits to be derived from membership of same."

The Longshoremen, also commended by the judges, had a ship in process of unloading, and this made a realistic picture, with a dummy load in the slings. Their turn-out in the parade was exceptional, one of the largest and most attractive of all taking part.

The barbers were represented by a model barbershop, with hair-cutting, shaving, a manicurist, and a negro shoeshining. The latter introduced some humorous tricks into the performance as the procession moved on its course.

Like the Amalgamated Society, the United Brotherhood of Carpenters showed a globe to illustrate their widespread character, and also had a capital display, illustrative of the craft.

The judges placed the rewards for the best-dressed unions in the following order: 1, Painters; 2, Electrical Workers; 3, Longshoremen. The last named also won Turner, Beeton & Co.'s prize for the best dressed union in Big Horn overall. The two prizes for teams drawing floats went to the Amalgamated Society (Luney Brothers), and Electrical Workers (J. Williams). In each case the horses were exceptionally fine.

In addition to those having floats there were a number of unions in the parade who simply carried their banners, and marched four abreast. One of the oldest banners carried was that of the Shipwrights and Caulkers, founded here in 1822.

Some of the other unions represented

In the parade were the Cement Workers' Hod Carriers, Laborers' Protective, Lathers, Cigarmakers, Shinglers, Tile Setters and Plasterers. In fact, it was a particularly representative parade of organized labor, especially the building trades, another demonstration of the constructional progress of Victoria.

A word of praise is due to the bands, the City and Fifth Regiment, which assisted during the day in the celebration. The chief marshal, Delegate Moran, and his assistants, Delegates H. J. Sheen and J. W. Macgregor, are to be congratulated on the display, as are also the union officials themselves. The secretary, E. A. King, had a busy morning, and deserves a special measure of praise for his efforts.

### PASSING SHOW

The Allen Players.

Commencing their last week here the Allen Players played to two full houses, afternoon and night, at the Victoria theatre yesterday presenting that very pretty and enjoyable comedy drama "That Girl From Texas." Miss Verna Felton, as the girl, May Parcy, was seen at her very best, giving a delightful rendering of a character of a cattle-ranch girl in the first act.

With all the unrestrained freedom of the plains she enters the home of Mrs. Farleigh on the Hudson to receive some polish and causes much consternation in the refined family by her cattle ranch manners and tomboy habits. In act two the scene changes to Kenwood manor in Ireland, where the girl from Texas has become the mistress by inheritance. The third act takes place in the same place, and the last act brings the scene to Texas where the company gives another of those delightful western scenes.

Miss Farnsworth, a new member of the company, played her first part with the Allen Players and made a most successful appearance as Elsie Farleigh. Mrs. P. R. Allen played Lady Kenwood with her usual distinction. George Zucco was a genuine old Texan with all the uprightness and freedom of the country which he honored.

"That Girl From Texas" proved to be a very successful play, the two holiday audiences expressing genuine delight after each of the four acts. The plot is of a lost girl, who in the young lady from Texas, is found to be an Irish Heiress, James Mitchell, in the part of Lord Kenwood has never appeared to better advantage. "That Girl From Texas" should have a good run during the week. It will be given by the Allen Players every night with a matinee on Saturday afternoon.

The Empress Theatre.

One of the most intense dramatic sketches on the vaudeville stage is "The Confession," in which Miss Dena Cooper, the Australian emotional actress, and her company are appearing at the Empress theatre this week. The author's name is not given on the play bill, but the little playlet has in it the suggestion to the playgoer that it is the bolting down of a three-act drama that has been well done. The froth has been carefully skimmed off at each bolting and nothing remains but the concentrated essence. To tell the story of it without the clever interpretation of Miss Dena Cooper being thrown on the canvas in front of the reader would take as long as to explain in words of two syllables the true inwardness of Pore Gnat. Miss Cooper is an emotional actress, capable of a part calling for more time on the stage, but she is probably one of those who has found that 20 minutes in vaudeville pays better than a cycle in the "legit." She is well supported by Reg Sheldrick and Walter Robinson.

The Arion quartette are four of the finest singers heard at the Empress for some time. They sing six good numbers, including "The Hound Dawg" song, which had quite a vogue until Champ Clark's presidential aspirations were killed. The Arion Quartette vie with the feature act for honors on the bill, and have to respond to several encores.

Frank and Pauline Berry bring a musical act in which they play a number of instruments and play them well. The Berrys have been heard here before and they seem likely to duplicate the success of their first visit.

Wallace's Educated Cockatoos instruct and amuse. The principal bird is White Eagle, the bird mathematician, one of the cleverest birds in vaudeville. This act is especially pleasing to the children, and will be quite a matinee feature.

Smiling Joe McGee, who was with Russell and Smith's minstrels on his last visit here, and for years was star of Al G. Field's minstrels, does a monologue act and sings several good songs. McGee, who is billed as "The Mark Twain of Minstrelsy," bids fair to become quite popular during the week.

Majestic Theatre.

"The Sands of Dee" is another typical photograph picture and a very decided success. It is a study of human life and human impulses, and was suggested by Kingsley's lyric. "The Sands of Dee" tells a story of over-trustful love and of cruel abandonment. The characters are mostly simple seaside folk in costumes of many years ago.

"The Extension Table" shows always room for one more. Good cheer and unity abide. "The Fathe Weekly" is a good number, showing scenes from Toulon, France; Kansas City, Mo.; Cromer, England; New York; Schwerin, Germany; Adelaide, Australia; Brooklyn, N. Y.; and Moscow, Russia. "A Windy Day" is a farce with a clown's part as its chief point of interest. The best of it is due to trick photography and there is a good deal of rather rudimentary fun in it.

The Pollard Juvenile Opera Co. The Pollard Juvenile Opera Company, which is to open at the Victoria theatre on Monday, September 3, left Sydney, Australia on July 1, commencing the first tour of the world. This is perhaps the most unique organization in the world, embracing as it does 40 of the cleverest youngsters to be found before the public. They do not present a series of songs and dances for which they have been trained to the neglect of acting, but give the latest and most popular musical comedies and comic operas, in a fashion that startles the beholder, and makes one lose sight

## SOCIAL AND PERSONAL

Mrs. Hugh Cleghorn has returned to Glenaholm Inn.

C. L. Morris, of Toronto, has arrived at the Empress hotel.

John Neale is registered at the Empress hotel from Seattle.

Mr. and Mrs. B. G. Crichton have returned to Glenaholm Inn.

F. Wilkinson, of Vancouver, is a guest at the Empress hotel.

G. W. Carlow, of Revelstoke, has arrived at the Empress hotel.

Colonel Clark and family have arrived at the Glenaholm Inn.

Mr. David N. Rose and wife are staying at the Glenaholm Inn.

George E. Frost, of Vancouver, is making a short stay in the city.

W. F. Petrie, of Toronto, arrived yesterday at the Empress hotel.

Mr. and Mrs. W. D. Wing have arrived in the city from Lethbridge.

T. A. F. Macintosh is registered at the Empress hotel from Vancouver.

St. F. Anthony has arrived at the Empress hotel from Du Pont, Wash.

Commander and Mrs. Biddlecombe have returned to the city from Vancouver.

Mr. and Mrs. John McNeill are spending some weeks at the Glenaholm Inn.

R. Hines is in the city from Lethbridge, registered at the Empress hotel.

Harold Spencer, of Racine, Wis., is making a short stay at the Empress hotel.

Miss Elliott, of London, England, has left the Glenaholm Inn en route for Hanfr.

Mr. and Mrs. Carew Gibson are guests at the Empress hotel from Vancouver.

Mr. and Mrs. T. H. Gilmour have arrived at the Empress hotel from Winnipeg.

Mr. and Mrs. J. Craddock Simpson are spending some months at the Glenaholm Inn.

Mr. and Mrs. J. M. Haning are in the city from Leamington, registered at the Empress hotel.

Miss Hemming, of Vancouver, has taken up her residence at Glenaholm Inn for the winter months.

G. T. P. Steamers to Seattle Sundays and Wednesdays; to Vancouver Mondays and Thursdays—sailing 10 a. m.

Domestic government officials, here in connection with the convention of the Canadian Forestry Association include S. Maher, J. C. Chaffin, and P. A. Carson.

Misses C. H. Smith and Jagger, of New Westminster, spent the holiday in Victoria, being registered at the Dominion hotel.

A visitor to the city last week was J. K. Craig, superintendent of the Forest Lawn cemetery, Omaha, Nebraska, who was greatly interested in the work of the parks committee, and being shown round by Supt. Purdy, saw much to praise in the administration of the parks of Victoria. Although a septuagenarian Mr. Craig is still vigorous, and takes an interest in life which would astonish many younger men.

An interesting Labor Day visitor in this city is Miss Jessie Cameron Brown of Victoria, niece of the late Miss Agnes Deans Cameron, whom she accompanied on many of her travels. Miss Brown, like her aunt, is possessed of much charm and literary talent, and promises to add another name to the ranks of Canadian literature very shortly, says the Vancouver Sun. While here she will be the guest of Miss Bayne of the Barron Annex.

Mrs. J. Nelson, Kittlaano, entertained a few young friends on Thursday afternoon in honor of her niece, Miss Clara Pinch, of Victoria. Miss Ena Bolton was the winner of a contest game which furnished part of the amusement for the afternoon. Miss Margaret Nelson assisted her mother with refreshments. Among those present were Miss Clara Pinch, Victoria; Miss Mabel Bain, Miss Bolton, Miss Grace Bolton, Miss Cassie Thompson, Miss Ney and Mrs. Wheatlin, of N. S.

A dispatch from London says: Mme. Albani, the American singer who took her operatic name from the city of Albany, N. Y., who has lived in London for several decades and who has published her memoirs under the title "Forty Years of Song," is in desperate financial circumstances, according to a report circulated among her friends.

Albani's career belongs to the last generation, as she made her debut in 1870. But, like Patti, she has regularly given a concert each year in London.

There were numerous entertainments there of the quiet order, which Princess Christian, a great friend of Albani, particularly liked and which Queen Victoria herself enjoyed. They were not especially fashionable during King Edward's reign, but they have come into vogue again with King George and Queen Mary. And many people, remembering what a favorite of Queen Victoria Mme. Albani was, have wondered why she was not among the hostesses of the new reign, along with so many other quiet, conservative women who have returned to active leadership in London society.

But visitors going past Park House these days will find it shut up and dilapidated, not having been occupied for several years, and with forlorn signs of "To Let" and "For Sale" conspicuously upon it. For Mr. Gye staked his wife's fortune for a second time upon the fickle rise and fall of the Stock Exchange.

And Albani, the most devoted wife in the world, and Queen Victoria's model of what a great prima donna should be in her private life, finds herself now in an obscure little dwelling, not far from Park House, trying to keep the home going by giving vocal lessons. Her only child, a young man who is in a banking business in the city, adores his mother and has signified his intention of taking care of her in her old age.

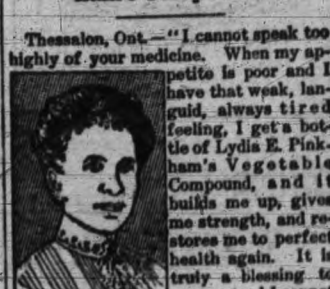

Albani herself has taken the final reverse of fortune with the greatest courage and is indefatigable with her pupils, showing no false pride and frankly soliciting all the assistance her friends could give her by sending new pupils to her. Proudly she informed The World this week that three of her scholars will take part in the coming Hereford festival, one of the chief musical events of the year.

She will be sixty years old on the first day of November.

When a girl screams on getting kissed she has the soft pedal down.

## ONTARIO WOMAN'S FORTUNE

Freed From That Weak, Languid, Always Tired Feeling, by Lydia E. Pinkham's Compound.

Thessalon, Ont.—"I cannot speak too highly of your medicine. When my appetite is poor and I have that weak, languid, always tired feeling, I get a bottle of Lydia E. Pinkham's Vegetable Compound, and it builds me up, gives me strength, and restores me to perfect health again. It is truly a blessing to women, and I cannot speak highly enough of it. I take pleasure in recommending it to others."

Mrs. ANNIE CAMERON, Thessalon, Ont.

Women who are suffering from these distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

There are probably hundreds of thousands, perhaps millions of women in the United States who have been benefited by this famous old remedy, which was produced from roots and herbs over 30 years ago by a woman to relieve woman's suffering. If you are sick and need such a medicine, why don't you try it?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

which English people have crowded to hear because they loved the singer and remained loyal to her personally in spite of the decay of her powers. Patti is one of the richest among the operatic song birds but she has taken her yearly toll from London audiences and they have given it to Albani with the same generous liberality. Yet comparatively few among them have realized how great has been Albani's need in recent years.

She leaped into fame in Bellini's "La Sonnambula" in Italy and then in a repertoire of Italian operas in London, became established as one of the greatest prima donnas of the world. She was appointed court singer in Berlin through the influence of Empress Frederick, who, like Queen Victoria and all her other daughters, proved herself Albani's devoted friend. She toured in Russia, India, South Africa and many times came over to the United States and Canada. Queen Victoria gave her years ago the English Order of Merit, which Florence Nightingale's father, who was not able to obtain for her until she died, before she died. The King of Denmark and the German Emperor also decorated Albani.

In the height of her world-wide popularity she married her manager, Ernest Gye. He helped her amass a fortune on the operatic stage and then, as younger stars were arising, she retired with enough to live upon in luxury for the rest of her days. But Mr. Gye conceived the idea that he could turn over several times upon the Stock Exchange, and his wife gave him every penny they possessed, only to find in a few years that it was all lost.

Albani then returned to the music stage and her concert tours, while not so richly productive as her operatic career had been, were amply successful, and in a few years the family was established in the Park House, South Kensington, one of the staidest mansions of the district, where the singer received her friends among English royalty with as much dignity as if she had been a duchess.

There were numerous entertainments there of the quiet order, which Princess Christian, a great friend of Albani, particularly liked and which Queen Victoria herself enjoyed. They were not especially fashionable during King Edward's reign, but they have come into vogue again with King George and Queen Mary. And many people, remembering what a favorite of Queen Victoria Mme. Albani was, have wondered why she was not among the hostesses of the new reign, along with so many other quiet, conservative women who have returned to active leadership in London society.

But visitors going past Park House these days will find it shut up and dilapidated, not having been occupied for several years, and with forlorn signs of "To Let" and "For Sale" conspicuously upon it. For Mr. Gye staked his wife's fortune for a second time upon the fickle rise and fall of the Stock Exchange.

And Albani, the most devoted wife in the world, and Queen Victoria's model of what a great prima donna should be in her private life, finds herself now in an obscure little dwelling, not far from Park House, trying to keep the home going by giving vocal lessons. Her only child, a young man who is in a banking business in the city, adores his mother and has signified his intention of taking care of her in her old age.

Albani herself has taken the final reverse of fortune with the greatest courage and is indefatigable with her pupils, showing no false pride and frankly soliciting all the assistance her friends could give her by sending new pupils to her. Proudly she informed The World this week that three of her scholars will take part in the coming Hereford festival, one of the chief musical events of the year.

She will be sixty years old on the first day of November.

When a girl screams on getting kissed she has the soft pedal down.

## The Evening Chit-Chat

By Ruth Cameron

Homes are mostly for women. They are managed chiefly by women, lived in a longer time by women, and cared for almost entirely by women.

I am sure no one will deny these facts.

Why, then, is not more attention paid to women and her convenience in the building of homes and the manufacture of household furnishings?

A friend of mine built a house. By her thrift she helped her husband earn and save the money for it, and then, because he was so much absorbed in his business, she was given the chief charge of building the new home.

And being an original woman she did not feel obliged to build it exactly as men had built the thousands of other houses in her city. Instead she incorporated into it innumerable little features which made it a better place for women to live and work in than the average house.

For instance, she has a big linen closet upstairs in which are several long drawers long enough to hold a shirt laid out at full length. Any woman will appreciate the convenience of that. And how easily such an arrangement might be made in almost any house. But how seldom it is.

Another thing on which this woman insisted was that the architect should give her a room downstairs for a sewing room. It is just a few bits of a room with only space for a sewing machine, a chest of drawers, a table and a chair or two, and a big window with a very pleasant prospect, but the saving in trips over the stairs or in clutter in the big living-room is enormous.

There are some of the ways in which one bright woman who was given a chance improved on masculine architecture. Women everywhere ought to be given more to say about home-building and ought to exert themselves to think and say and act more than they do on this very important subject.

And the result would be not only to make their own individual homes better places for women to live and work in, but to improve the pattern of the ready-made homes which are being man-built by the thousand all over this country.

Nor should woman stop at influencing architecture; she should also do all she can to influence manufacture in so far as it touches her. For instance, I am appalled at the heavy tea kettles which are sold to foolish women who daily overtax their strength in lifting them. Women ought to put an end to the manufacture of such articles by refusing to buy them.

Again, look at the difference in labor between making a high or low bed. There is no excuse for these back-breaking low beds. A bed has to be made as well as slept in, and manufacturers should remember that, and when they fail to, should be taught a lesson.

They tell us that the American man will give the American woman anything at all she wants to ask for. Let's learn to ask for homes and household furnishings that shall be more efficient from a feminine point of view.

Ruth Cameron

THE NEWEST SWEATER.

The reversible idea is here applied and the sweater is really two, sewed together at the edges. The yarn used is the wry kind which makes the round open mesh when loosely knotted. The colors were white and pale pink and the effect is very soft and fluffy.

"Does your husband have many stories accepted?"

"Well, not the ones he tells by way of explanation when he comes home late at night."

ceded beautifully on the right cheek. The left cheek, however, refused to succumb to the beauty doctor's treatment, and the woman has now a youthful right cheek, which is firm and blooming, and an elderly left cheek, with wrinkles, and the half of a double chin.

She thought that the disfigurement was worth £1,000. The court under-ceived her, and gave her nothing.

## New "Art Bell" PIANOS

Have the illimitable repeating action which makes possible a technique not obtainable in any other piano. The tone is of a rich velvety quality which is educating to the student in acquiring the correct intonation. You are cordially invited to inspect our Fall stock.

## "THE MODERN ELECTRIC SHOP"

## An Electric Heater for the Bathroom

An Electric Air Heater is a portable fire place without a fire. The heat is furnished by three large frosted electric lamps, which throw off a cheerful, warm glow. By a snap of the regulating switch either one, two or all three of these lamps can be turned on, giving a mild, medium or full heat. Behind the hot lamps is a polished copper reflector, which throws the heat out and concentrates it in a direction immediately in front of the heater. It is especially neat in design and well finished, and will be found very useful.

## Creech-Hughes Electric Company

## DOUBLE FACED WOMAN.

A woman of Lyons who desired to have the beauty of youth restored to her and failed to achieve her wish asked for £1,000 damages against a doctor as the price of disfigurement.

The doctor had offered to remove the wrinkles in her cheeks by lifting the skin and sewing it to the forehead under her hair. The operation suc-

ceeded beautifully on the right cheek. The left cheek, however, refused to succumb to the beauty doctor's treatment, and the woman has now a youthful right cheek, which is firm and blooming, and an elderly left cheek, with wrinkles, and the half of a double chin.

She thought that the disfigurement was worth £1,000. The court under-ceived her, and gave her nothing.

## AN APPRECIATION OF Mapleine

From the Land of Hot Cakes and Flapjacks  
BIG HORN HUNTING LODGE  
Big Horn Mountains, Wyo., May 14, 1912.

Concise Mapleine all gentlemen should have a check No. 71, and the kindly mail us two bottles (signed) N. H. Hillier.

Mapleine makes a delicious syrup and also a sauce, cakes, custards, and tarts.

Grocers sell Mapleine, if not, write

## SUCCESS FAVORS LABOR DAY SPORTS

### WORKERS GATHER AT BEACON HILL PARK

#### Seven Thousand Surround Enclosure and Witness Races and Competitions.

Tools of trade were laid aside yesterday for a grand re-union of workers, which took place in the afternoon at Beacon Hill park and concluded with a dance in the George pavilion last night. At the park yesterday afternoon there were fully seven thousand people assembled round the roped enclosures, where forty-two events were contested, the on-lookers by their general appearance and happy and prosperous demeanor testifying to the prosperity of the city of Victoria. The prize list was generous, being comprised of the donations of the local merchants and store proprietors, many valuable articles being received by those whose speed and endurance gained them places in front of other runners.

Entries in all the events were plentiful, there being as many as twenty starting in some. All entries were post entries and the races being promptly called by the members of the committee were eagerly responded to. The ground was divided into sections so that the events could be contested without loss of time and the interest maintained for the spectators. There was always at least one event in progress and there were often two at once. There were races for men, women and children, walking, potato, three-legged, leap frog, sack, needle and thread, a cracker-eating contest for boys, in which there were a large number of crackers consumed; and many other interesting events.

A hobble skirt race for ladies demonstrated that the modern apparel for women is not suited to speed on the track, and in the skipping race one competitor clad in a narrow skirt came to the ground half way along the course because of lack of freedom. There was a cash prize of \$45 for the tug-of-war, in which several teams competed, the Longshoremen's Union nine eventually out pulling all the teams of the other unions and securing the coveted purse.

One of the most remarkable events on the programme was the competition in the largest family on the ground for a Morris chair. D. McKenzie mustered nine children and C. Webb secured half a ton of coal, gathering eight children together for the contest. The third prize, a thermos bottle, was won by William Gouldie, who had his family of seven with which to compete. A condition of the race was that all competitors should be union men.

The oft-repeated statement that women cannot throw was dissipated by the fact that many of the competitors in the women's baseball throwing contest threw very straight, and Miss Catherine Johnston's efforts in this direction gained her the first prize, a half-ton of coal.

George Douglas Grant was generally agreed on by the judges as being the best-looking baby boy, and Edna Verge was selected as the best-looking baby girl. A hard working committee kept the sports well in hand, and with perfect arrangements for letting the winners and giving them their orders for prizes, the races were run off speedily and without a hitch throughout. The judges were Ald. Okell, Dilworth and Baker, with several assistants. Prizes were donated by almost every business house in town and there was a large sum in cash collected. A donation of \$250 was given by the city and donations were received from fourteen unions. Nicely printed programmes, containing all the information regarding the races, and Labor Day events, and the prize givers, were issued, and everything that could be done to make the day successful was provided by the committee. The official prize list is as follows:

1-200-yds. (open) dash, A. Dougan, 1st; F. Lines, 2nd; R. McMillan, 3rd.  
2-100-yds. union men, W. Lock, 1st; Mr. Johnston, 2nd; Mr. Acton, 3rd.  
3-100-yds. hurdle, W. Lock, 1st; W. McBeach, 2nd.

4-Fat man's race, John Martin, 1st; J. Smith, 2nd; J. T. Butler, 3rd.  
5-150-yds. obstacle, Sid Humber, 1st; Name not obtained, 2nd; Name not obtained, 3rd.

6-100-yds. slow bicycle, W. Y. Alys-worth, 1st; C. J. Coultas, 2nd; H. W. Sommers, 3rd.  
7-150-yds. walking race, Joe Wiley, 1st; H. Menzies, 2nd; F. Hammond, 3rd.

8-100-yds. committee race, Miss Fleming, 1st; Miss Franks, 2nd; E. Christopher, 3rd.  
9-150 yards leap frog in teams of six, team of O. Duncan, 1st; team of J. W. Stromberg, 2nd; team of W. G. Grey, 3rd.

10-100 yards thread and needle, Mrs. Pearl Clark, 1st; Mrs. E. Jacklin, 2nd; Mrs. N. Scott, 3rd.

11-100 yards sack race, H. A. Castle, 1st; F. Humber, 2nd.  
12-Running high jump, O. H. Johnston, 1st; F. Lines, 2nd; C. Catterall, 3rd.

13-Running broad jump, E. Catterall, 1st; J. Whatman, 2nd; W. H. Johnston, 3rd.  
14-75 yards single ladies race, Alma McLaren, 1st; Violet Speed, 2nd; May DeWesey, 3rd.

15-50-yds. single ladies' race: Blanche Cavin, 1st; Sadie Moore, 2nd; Ruth Webb, 3rd.

16-75-yds. married ladies' race: Mrs. Bushell, 1st; Mrs. Scott, 2nd; Mrs. Askey, 3rd.

17-50-yds. married ladies' race: Mrs. Leask, 1st; Mrs. Stemple, 2nd; Mrs. West, 3rd.

18-50-yds. skipping race (girls): 15 to 18 years: Blanche Cavin, 1st; Vi-

let Davies, 2nd; Margaret Robinson, 3rd.  
19-50-yds. boys' race (under 16): Willie Church, 1st; George Tibbitts, 2nd; C. Hay, 3rd.  
20-50-yds. girls' race (under 16): Roxey Donnelly, 1st; Isabel Taylor, 2nd; Pearl Laxton, 3rd.  
21-75-yds. hobble skirt race for ladies: Alma McLaren, 1st; Violet Speed, 2nd; Mrs. Jacklin, 3rd.  
22-Cracker eating contest for boys: C. Whatman, 1st; Willie Church, 2nd; Geo. Phillips, 3rd.  
23-50-yds. skipping race: Mrs. B. Peterson, 1st; Miss E. Miller, 2nd; Mrs. W. Askey, 3rd.

24-Egg and spoon race for ladies: Mrs. P. Wilby, 1st; Mrs. B. Peterson, 2nd; Mrs. W. Rosally, 3rd.

25-75-yds. waitress race: Miss A. Fleming, 1st; Miss H. Franck, 2nd; Miss C. Cameron, 3rd.

26-75-yds. skipping (girls under 16): Isabelle Taylor, 1st; Roxey Donnelly, 2nd; Myrtle Speed, 3rd.

27-100-yds. single ladies' race: Miss W. E. Hawks, 1st (names of 2nd and 3rd not obtained).

28-Wrestling match: W. Hartwick, 1st; Arthur Woods, 2nd.

29-Tug-of-war (union men): Longshoremen's Union, 1st; Cement Workers, 2nd.

30-Most energetic waitress on the grounds: Miss Fleming, 1st; Miss Franks, 2nd.

31-Human wheelbarrow race: Dakers and Johnston, 1st; Burgess Bros., 2nd; King and Cross, 3rd.

32-Tug-of-war, married vs. single: married men, 1st; single men, 2nd.

33-Comic costume in character: Charlie Woodville (apply E. A. King, Labor Hall).

34-100-yds. relay race: Not run.

35-Hop, step and jump: Oscar W. Johnston, 1st; H. Rothwell, 2nd; J. E. Allen, 3rd.

36-Bun-eating contest: No contest.

37-Best looking baby boy: George Douglas Grant, 1st; Horace Palmer Williams, 2nd; Wallace Conneron, 3rd.

38-Best looking baby girl: Edna Verge, 1st; Lillian Leask, 2nd; Ellen Whitall, 3rd.

39-Largest family on ground (union father): D. McKenzie (5 children), 1st; C. Webb (8 children), 2nd; Wm. Gouldie (7 children), 3rd.

40-Baseball contest between unions: Electrical Workers, 1st; Plasterers' Union, 2nd.

41-Baseball throwing contest for ladies: Mrs. Catherine Johnston, 1st; Miss Violet Speed, 2nd; Mrs. Logan, 3rd.

42-100-yds. single ladies' race: Miss Madge Davies, 1st; Miss Nellie Heine, 2nd.

43-100-yds. special race (union men): G. Pottinger, 1st.

44-Special prize (\$10) ball-throwing contest for men: Manley Romans.

At the dance at the George in the evening, Roy Johnston and Mrs. Hilder, 1st prize waltz; B. Purry and Miss N. Earle, 1st prize two-step.

**SUPREME COURT  
JUDGE ON VISIT**

**SIR LOUIS DAVIES  
ARRIVES IN VICTORIA**

Distinguished Career of Jurist Who Has Been Premier of P. E. I. and Also Minister

Sir Louis Henry Davies, a judge of the supreme court of Canada since 1901, arrived in the city yesterday with Lady Davies and Miss Mary Davies on a brief visit to Victoria.

Sir Louis is delighted with the city, its clean streets and the fine architectural effect conveyed by its splendid residences, and during his stay will visit the principal attractions in the vicinity. He plans to return by way of Edmonton, where he has business.

Sir Louis has been associated for forty years with public life, having entered the legislature of Prince Edward Island at the early age of 27, and was a member till 1879. He was leading counsel for the tenant in the celebrated land commission, which settled the land question in the island, and was also one of the British counsel before the international fisheries commission in 1877 at Halifax.

In September, 1876, he became premier of the island and attorney-general, and effected a number of reforms during his administration. He entered the House of Commons for Queens' in 1882, and continued to sit for that constituency till his elevation to the bench. He was minister of marine and fisheries in the Laurier administration from its inception, and remained in that office till he was appointed a judge. During his occupancy of that portfolio he was a member of several important international bodies. He was a prominent member of the international joint-high commission of 1898, presided over by Baron Herschell and appointed to consider the principal questions at issue between Canada and the United States. He also went to London in connection with the Behring Sea seal question, and also the German and Belgian trade treaties. His eloquence has led him to be invited to be the orator at several important historical functions, and his seal and industry won admiration from all classes, while his judgments from the bench have won compliments from the private council judicial committee.

**CHINESE DEFEAT MONGOLIANS.**

Chicago, Sept. 2.—Governor Charles H. H. of Manchuria has telegraphed to the government, says a dispatch from Peking, China, to the Chicago Daily News to-day, that General Chang Cho Lin attacked a large force of Mongolians near Tsan Fu, defeating them after a 12-hour engagement. The Mongolians lost 1,000 killed and 700 taken prisoners. The Chinese captured five guns and much ammunition.

## SIXTY-SIX FOOT ROAD ALLOWANCES

### IMPORTANT PRINCIPLE MUST BE DETERMINED

#### Must Owners, in Making Subdivisions, Concede Enough Land to Complete Width?

In dealing with sub-divisions, the Saanich municipal council, in common with other municipal authorities, has been brought face to face with the problem of making wide thoroughfares, as most of the roads were forty feet wide when the administration was taken over from the government at incorporation.

Now that property is being subdivided the council declares a new state of things had been created, and has called for the owners to allow for thirteen feet inside their property when bounding an existing road, so that when the district comes to be settled and subdivision takes place on the opposite side, the full allowance of sixty-six feet will be available.

Two communications dealing with this phase of the situation came before the council at the meeting on Saturday. One was from Crease & Crease and had reference to section 22, lots 34 and 37, the legal firm declaring that in filing a subdivision plan an owner is permitted to show roads existing at the time on his plan, although they are not of the full width required in new roads. They continued: "We do not find any authority which would justify any municipal council in demanding that the owner of property should donate part of it for the purpose of widening existing roads even although he happens to be subdividing property through which these existing roads run. In this case the road in question does not even run through our client's property, but only alongside the same. It is obvious, therefore, that as this road bounds our client's property on three sides the concession asked by the council would eat up a large part of the land, and would be a serious matter financially."

They expressed a hope that the council would not press the matter further, and that their clients might not be harassed in the exercise of their rights in dealing with their property. A letter on similar problems came from Joseph B. Davenport, citing the recent judgment in the city of Victoria versus the Island Investment Company, in which it was held that the city could not compel owners to donate land adjoining an old subdivision.

The letters were received and filed, the reeve saying they would let the matter go to the executive council, for he did not see how they could fail to be supported when the provincial government was following the definite plan of sixty-six-foot roads everywhere.

There were again a large number of subdivision plans before the council, but the authority refused to pass that for lots 4 and 5, section 55 and 58, Cedar Vale, better known as the Charming Cross Road subdivision, to which reference has been made already, as Mr. Tracey, the owner, filed the plan without reference to a provincial land surveyor, as required by the Land Act.

Two interesting announcements were the subdivision of the fine property facing Elk lake, on the east road, and directly south of Elk Lake school, to be known as "Alta Vista," being part of sections 44, 45 and 46, Lake district, and also of subdivisions adjoining Madrona park.

**WHEN A LAXATIVE IS  
NEEDED—"CASCARETS"**

Gently Clean Your Liver and Constipated Bowels While You Sleep

Take a Cascaret to-night and thoroughly cleanse your Liver, Stomach and Bowels; and you will surely feel great by morning. You men and women who have headache, coated tongue, can't sleep, are bilious, nervous, disordered stomach, or have backache and feel all wrong out.

Are you keeping your bowels clean with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels.

Remember, a Cascaret to-night will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children.

**CONVICTS TRY TO ESCAPE.**

Jackson, Mich., Sept. 3.—State prison convicts confined in the bull pen broke out to-day while in the prison yard and tried to get over the walls. The local company of the state militia were ordered to the prison at once, and it is said had orders to shoot the first prisoner who attempted to scale the walls. The fire department was called to the scene, some fires having been started by the convicts.

As a grower of flaxseed, Argentina ranks first among five countries—Argentina, Russia, British India, United States, and Canada—which produce the commercial crop of the world.

DECLINE SUBSTITUTES**

## SCOTCHMEN HOLD SUCCESSFUL MEET

### Thoroughly Enjoyable Event at Exhibition Grounds—McDiarmid, Point Winner

Attended by a record number of pleasure-seekers and enjoyable from every standpoint, the Caledonian games held at the Exhibition grounds yesterday proved highly successful. The verve with which the whole of the lengthy programme was carried out in a pleasing feature and not in several years has the local Scotch society conducted such a creditable event.

While the entries in the track events were not large, the presence of Messrs. Beasley and Gallon, both Olympic game participants with the Canadian team, added interest. Both wore their respective races, the 100 yards and 440 yards, with ease, the time made being slow, as the track was in heavy shape. A. McDiarmid, of Vancouver, cleaned up all the shot-putting events, etc., in a handy manner, being by far the biggest point-winner at the meet. P. Beasley, brother of Hal Beasley, was winner in the one mile race in slow time.

The dancing events proved popular. They expressed a hope that the city would not press the matter further, and that their clients might not be harassed in the exercise of their rights in dealing with their property.

A letter on similar problems came from Joseph B. Davenport, citing the recent judgment in the city of Victoria versus the Island Investment Company, in which it was held that the city could not compel owners to donate land adjoining an old subdivision.

The letters were received and filed, the reeve saying they would let the matter go to the executive council, for he did not see how they could fail to be supported when the provincial government was following the definite plan of sixty-six-foot roads everywhere.

There were again a large number of subdivision plans before the council, but the authority refused to pass that for lots 4 and 5, section 55 and 58, Cedar Vale, better known as the Charming Cross Road subdivision, to which reference has been made already, as Mr. Tracey, the owner, filed the plan without reference to a provincial land surveyor, as required by the Land Act.

Two interesting announcements were the subdivision of the fine property facing Elk lake, on the east road, and directly south of Elk Lake school, to be known as "Alta Vista," being part of sections 44, 45 and 46, Lake district, and also of subdivisions adjoining Madrona park.

**Complete results:**  
Local Track Events.  
1. Boys' race (under 12)—1. W. Symons; 2. J. Burns; 3. W. Legrand.  
2. Girls' race (under 12)—1. Agnes Anderson; 2. M. Legrand; 3. M. Millington.  
3. 440 yards' race—1. T. Gallon; 2. H. Beasley; 3. McCallum.  
4. Hammer throwing—1. W. Christie; 2. A. Manson; 3. A. H. Ross. Distance, 163.3 feet.  
5. Putting the shot—1. W. Christie; 2. W. Elliott; 3. M. Doyle.  
6. 100 yards' dash—1. N. Beasley; 2. T. Gallon; 3. McCallum.  
7. Putting 56-lb. shot—1. A. Manson; 2. M. Doyle; 3. W. Christie.  
8. Wrestling—1. A. McDiarmid; 2. W. Ross.  
9. High jump, open—1. A. McDiarmid; 2. E. McCallum; 3. B. Dixon.  
10. Putting shot—1. A. McDiarmid; 2. R. C. McDonald; 3. W. Christie.  
11. Throwing the hammer—1. A. McDiarmid; 2. R. C. McDonald; 3. A. H. Ross.

# Then--and Now

Years ago, when your great, great grandmother knitted the children's hosiery, made all the shirts, and many of the household necessities, she did it because there was no other way to get them.

You don't do it to-day. You can buy a better ready-to-wear article cheaper than you can make it.

This is also true of dresses and gowns.

Science, skill, up-to-date machinery, have made it possible for you to purchase clothes ten times cheaper than you can make them. You can save your strength, your time, and your money.

The suits Gordon's sell are absolutely unique. They are results of long and progressive tailoring, and artistic and scientific cutting—all of which allows the lowest cost in making and consequently the lowest cost to you. When you buy you want the BEST—the most stylish and fashionable—the finest fitting. A visit to our Mantle Department will prove that our Ladies' Suits are without peer in the city. Step in to-morrow. Our new Fall lines are on display and we would be pleased to show you them.

Letters for publication in Daily Times must be received before 10 a. m. When received after that hour they will go over until next day.

**SUGGESTS A LAMP.**

To the Editor—The demand made by the residents of Spring Ridge on the spring of water on Ridge road by night and day is in itself a proof of the appreciation by the citizens of this district for the improvement made by the city council, in building a flight of steps and placing a tap on the spring for their convenience. But in its present state this well is very unsafe at night, and at any time an accident may happen here which may more than undo all the good that is being done.

Might I suggest that the council go one better, and see to it that a street lamp is placed at the corner of Ridge road and Peppercroft street, so that those of us who have not the time or opportunity to fetch water during the day may do so with safety at night.

I myself have quite a difficulty in finding the steps on this dark corner, although

**A NIGHTHAWK.**

**HARD ON HORSES.**

To the Editor—Some little time ago Vancouver street was in very bad repair, and I have no doubt that the automobile people were kicking, but now it has been repaired and in beautiful condition for the motor traffic. The company, after filling in the bad places, covered the street with a coat of tar and left it thus, instead of spreading sand on the surface. Now it has got hard and is like glass. The other morning I was looking out of the window and in five minutes three horses went down, one of them smashing the shafts. I also happened to see a young lady riding down in front of the house, and the horse slipped and she was thrown with great force to the ground. Now I am not the only one that is kicking this happen every hour of the day. I sincerely trust that the city will see into this matter and lay some sand from Burdette to Col-linson street.

**THE HORSE'S FRIEND.**

**ONTARIO NEWSPAPER MAN.**

J. I. McIntosh, of Guelph, on Visit to Coast With Friends.

Mr. and Mrs. J. Innes McIntosh, and Mr. and Mrs. William Macdonald arrived in the city on Saturday, after-

noon on a brief visit from Guelph, Ontario.

Mr. McIntosh is proprietor of the Guelph Mercury, and has been associated with newspaper enterprises in western Ontario for many years. He commenced as a reporter in Woodstock, and was associated with the Toronto Globe and Guelph Mercury. He was next private secretary in turn to late Hon. T. B. Pades, commissioner of Ontario crown lands, the present Lieut. Governor of Ontario, the late Hon. W. D. Balfour, and the Hon. E. J. Davis, and for the last 15 years has been associated with the Mercury as part proprietor and managing editor. It is several years since Mr. McIntosh has been on the Coast.

**SHELLFISH COMMISSION.**

St. Andrew, N. B., Sept. 2.—The commission appointed by the Dominion government to inquire into the cause of the decline of the oyster and other shell fish industries of the eastern provinces met here to-day to conduct its first hearing. Subsequent sittings of the commission will be held at the principal shore points of Nova Scotia, New Brunswick and Prince Edward Island.

A London Board of trade statement shows that 21,653 emigrants left Ireland during the year 1911.

**September Wedding Bells**

Will soon remind us of the many happy events to take place this month. WE would remind YOU that nowhere can you make so happy a choice of the Wedding Gift as here. Of Cut Glass, Silver and Silver Deposit. Novelties we have a delightful collection for your choice. All at P. and G. prices, too.

## UNIVERSITY M. P.

ON VISIT HERE

HAS A CONSTITUENCY  
KNOWING NO BOUNDS

Sir Henry Craik Opposed to  
Sectional Navies — Ex-  
change of Officers

Sir Henry Craik, K. C. B., M. P., for Glasgow and Aberdeen Universities, and accordingly one of the nine university representatives in the British House of Commons, arrived in the city Saturday and is making a brief stay. Although a member of the House for the last six years, Sir Henry's work has largely been done as secretary of the Scottish Education Department at Whitehall, with which he was associated for twenty years. While in Victoria, he hopes to meet Dr. Young. Congratulating the province on the successful inauguration of the university movement, he said he hoped that convocation would be given a free hand, allowing the institution to develop on its own lines, and that there would not be too much state interference. He was glad to see the amount of advance which had been made in educational matters in recent years in Canada, and on his way west had visited McGill University and the Queen's Agricultural College. He would visit Toronto en route to England.

Naval Questions.  
Discussing the navy and direct association of the overseas dominions with the Imperial government in maintaining naval defence, Sir Henry Craik said in part: "While I think militia service should be restricted to the several areas to be defended, and as a member of the executive of the National Service League, I believe all should be trained to arms, the question of a navy is another matter. The whole success of a navy depends upon striking the foe at a vital point during a critical time, and a navy for defence purposes staying round the harbor cannot do that. Would Canadian officers be attracted to a profession which limited them to the exercise of their profession in Canadian waters? I think they would require the encouragement of transfer to different fleets for, after all, a navy is a world matter, and fleets must use all the seas. Much as everybody would deprecate a German war it cannot be disguised that circumstances over which governments appear to have no control are tending to a conflict sooner or later. German expansion is likely to bring her into conflict with Great Britain, the other great maritime power of the world. Speaking for my fellow members I think I may say that we are not so anxious what may be done or how it is done so long as there is some attempt to move for naval defence.

Imperial Federation.  
"Although I have not been enthusiastic for tariff reform, I have come to the conclusion that it is necessary, and in that way only will an avenue be found for development of Imperial preference leading up to federation of the Empire. On that ground alone I as a Unionist oppose Home Rule, as a backward step from ultimate federation. We are quite satisfied Home Rule will not pass, as it is the worst Home Rule yet presented for the consideration of the House, and the financial details would be disastrous to the British taxpayer, who has already as much as he can stand in financial burdens. As a party they were anxious for a general election, satisfied that the result would be to place them in power.

Single Tax.  
"I am surprised," he proceeded, "at the universal disapproval in this country of the tenant farmer system, and the friendliness for the single tax proposal. It might be possible in a new land like this, but it is absolutely unsuited to the old country, where conditions have assumed their positions years ago. The taxers of land make no pretence that they have in view the ultimate intention of taxing land to its full value, and the deprivation of the landowner of his interest in the property. Values move slowly. In many cases they are below what they were a few years ago, and have ceased to be of profit to the owner. In a new country like this the public may well say that they are entitled to some share of the enormous advance which land makes in a few short years."

Sir Henry Craik expressed his opposition to Women's Suffrage, and said if a poll could be taken of the women of Great Britain to-day, there would be a very large percentage against women being placed on political equality with men.

was hardly a small town in the old country which had not some members resident there, professional men like doctors, lawyers and schoolmasters, who looked rather to their university representative than to the member for the district where they resided. These men were anxious to have the case laid before the House and ministers by men who understood the point of view rather than by the ordinary member. The discussion on the Insurance Bill had shown the necessity for this class of representation. By the nature of things Scotland was a small country, and could not absorb all the men she educated at the four universities, so that they had to educate for outside consumption. That was one of the causes why university representation should remain, and he believed three-quarters of his constituents preferred to be represented that way.

## TENDER LET FOR ST. BARNABAS CHURCH

Handsome Addition to Ecclesiastical Edifices of City—  
In Norman Style

Selected from some other dozen competitors, James & Beaton, of Vancouver, have been the successful architects for the new St. Barnabas church, at the junction of Cook street and Gale-donia avenue. The design approved by the building committee provides for a handsome church modelled after the Norman style, with square tower, as found in most of the churches of that period. The new edifice will be a graceful addition to the church buildings of the city.

The accommodation of the new building will be all that could be desired. The main body of the church will have a seating capacity of 300, and there will also be a morning chapel with accommodation for another forty. Provision is to be made for an exceptionally large chancel and organ chamber. A clergy vestry, and ambulatory are also to be added. The building will be of rubble stone, 160 feet long by 62 feet wide, the tower rising to a height of some 44 feet. The cost will be about \$25,000.

The present structure dates back about twenty years. The altars, memorials, and other historical appurtenances of the old church will be moved to the new one.

Daughter (singing to her own accompaniment) — "I'm afloat, I'm afloat."  
Father — "You'll jolly soon be capsize by such a squall as that."

The Royal Mail Steam Packet Co. has completed by payment in London with a check for \$2,87,883 purchase of Union Castle Line. The Royal Mail is now the largest steamship company in the world.

## BIRTHDAY CALENDAR

## IF THIS IS YOUR BIRTHDAY

It is a favorable day and general good fortune will follow you through the year. A letter will cause you some annoyance and you should take especial care of your health.

Those born to-day will be generous and good hearted and will have the brilliant qualities which make for success. Their drawback will be a lack of the plodding earnestness necessary to bring out their best.

## Birthday Congratulations TO

September 2.

Deer, Ven. Archdeacon Henry (Kaslo, B. C.); born Bermuda, 1844; missionary in Algoma, Minnesota and Alaska for many years; now rector of Kaslo and archdeacon of Kootenay.

Burcombe, Frederick (Vancouver); born Bodmin, Cornwall, England, 1852; lumberman and capitalist; a former mayor of Vancouver and past president of the board of trade of that city.

Carpenter, Col. Albert Edward (Toronto); born London, Ont., 1847; served in South African war; an officer of the Royal Canadian regiment.

Harrison, Arthur Gregory, B. A., C. E. (Edmonton); born Fredericton, N. B., 1870; railway engineer and former Dominion land agent; one of the founders of the Canadian club of Edmonton.

Harvey, Alfred Eugene, B. C. L., K. C. (Montreal); born Stanstead, Que., 1861; one of the leaders of the junior bar in Montreal.

Kehoe, Hon. John James, LL. D. (Sudbury, Ont.); born Ottawa, 1854; crown attorney for Algoma, 1884-1904; county judge at Sudbury since 1908.

Lucas, Alexander, M. P. P. (Vale, B. C.); born Lambton, Ont., 1852; the first mayor of Calgary; Conservative M. P. P. for Vale.

Marois, Albert L. Edouard, M. D. (Quebec); born Quebec, 1860; professor of medicine at Laval university and superintendent of Beauséjour lunatic asylum.

Sturdee, Lieut.-Col. Edward (Toronto); born St. John, N. B., 1854; broker and agent; active in militia matters and former commander of 62nd Fusiliers.

Taylor, James Davis, M. P. (New Westminster); born Abenaki Mills, Dorchester, Que., 1853; active journalist in Montreal, Ottawa and British Columbia for many years; now managing director of New Westminster Columbian; Conservative M. P. for New Westminster since 1908.

and commerce since 1911; a member of the Empire trade commission.  
Gillbault, Joseph Pierre Octave, B. A., LL. L., M. P. (Joliette, Que.); born St. Paul, Joliette, 1879; Conservative M. P. for Joliette since 1911.  
Jenkins, Louis Leoline, M. P. P. (North Wiltshire, E. I.); born Charlottetown, 1860; Conservative M. P. for the second district of Queen's.

MacMaster, Donald, K. C., D. C. L., M. P. (London, Eng.); born Williams-town, Ont., 1849; barrister in Montreal for many years; now practising in England; Conservative M. P. for Glen-garry, Ont., 1882-1886, after having represented same county in Ontario legislature, 1879-1882; Conservative M. P. for Chertsey in the British House of Commons since 1910.

Ruddick, John Archibald (Ottawa); born Oxford county, Ont., 1852; dairy commissioner in New Zealand, 1894-1905; dairy commissioner for Canada since that date.

Torrance, James, M. P. P. (Milverton, Ont.); born Edinburgh, Ont., 1855; merchant; Conservative M. P. for North Perth since 1905.

Little Ethel studied the face of the little negro intently.  
"What makes you so black, Cindy?" she finally asked.  
"Hah," said Cindy, "you'd be black too, if you was born at midnight in a dark room, and had a black father and black mamma."

During April, May and June 17,345 immigrants arrived in Canada, an increase of 18 per cent. over a year ago; 121,958 arrived at ocean ports, and 52,565 from the United States.

## FORWARDING WORK OF CONSERVATION

**SECRETARY WHITE  
ARRIVES IN CITY**

Important Duties Discharged  
by the Various Branches—  
Illegal Diversion of Water

James White, secretary of the Conservation Commission, is in the city to attend the forestry convention. On his way west he made a trip to Tete Jaune Cache and found steel laid to fifty-eight miles west of the summit. On the coast he went north and had a look at the construction work on the G. T. P. as far as Hazelton.

The Conservation Commission, which is not a regulating body, but an advisory one, is now working upon a very comprehensive plan. Mr. White, who is an exceedingly able and energetic officer, last evening outlined the present activities of the various branches, each of which is in charge of a competent man.

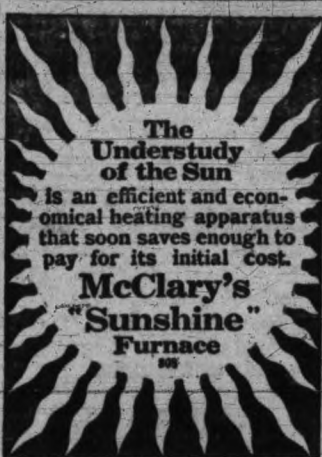

Clyde Leavitt, the forester for the commission, is devoting his attention to the operations of locomotives through forest country.

Mr. Denis is examining water powers in the Peace river, Slave river, Clearwater river and Churchill river districts. A. V. White is discharging a similar duty on the west coast of Vancouver Island, the railway belt and vicinity.

Wm. Dick, the commission's mining engineer, is investigating the mining methods of the Maritime Provinces to ascertain if conditions are favorable to the adoption of more economical methods and the prevention of waste.

Mr. Nunnick, the agriculturist of the commission, is carrying out a particularly important work. The commission is establishing demonstration farms, by inducing land owners in the district suitable for agriculture to set aside a portion of land and cultivate it according to the instructions of the commission, the latter to supply the seed. This is being done on Vancouver Island, in the Fraser Valley and the dry belt in British Columbia. The object of this plan is to ascertain if agricultural methods are improving, deteriorating or remaining stationary.

Dr. Hodges, the health expert of the commission, is now at Chicago and his presence there has a bearing upon a matter which is of international importance and in which is involved a

### The Understudy of the Sun

Is an efficient and economical heating apparatus that soon saves enough to pay for its initial cost.

**McClary's  
"Sunshine"  
Furnace**

serious menace to navigation on the Great Lakes.

Chicago obtained from the secretary for war permission to divert four thousand cubic feet of water per second from Lake Michigan into the city's drainage canal to treat the sewage by the dilution method; in other words to use sufficient water to render the sewage innocuous. Last year, however, instead of diverting 4,000 cubic feet per second from the lake the city took 8,000 cubic feet which lowered Lakes Michigan, Huron, Ontario, Erie, as well as the St. Lawrence river four inches.

Mr. White pointed out that one inch draught is equal to 10 tons of freight, so that the diversion of more water than Chicago was legally entitled to reduced the freight-carrying capacity of the boats on the lake by 200 tons.

Naturally a tremendous protest arose from the shipping interests on the lakes, and the Conservation Commission issued a striking pamphlet, dealing with the situation which was sent to the press of Canada and the United States and the most influential people of both countries. Last February and March the matter was taken up at Washington before the secretary for war, Mr. Stimson, whose decision, however, has not been rendered. Mr. White anticipates a favorable verdict from the secretary. Not only was Chicago's illegal diversion of water a menace but the scheme of treating the sewage by the dilution method, Mr. White points out, is absurdly impracticable. Mr. Hodges is in Chicago to establish this fact to the satisfaction of the authorities there.

There are also a number of parties in Northern Peterborough and Haliburton districts laying out specimen areas for experiments in reforestation.

Local Improvement Work.—Alderman Stewart gives notice for the meeting of the city council to-night that he will move for the laying of a sidewalk on Dallas road from Cook street to Buxby street as a work of local improvement.

High School Foundation Stone.—It is understood that the foundation stone of the new high school will be laid by the minister of education, Dr. Young, in the course of the next few days. The date has not yet been set, but it must be done shortly as the contractors, Dinsdale & Malcolm, wish this ceremony completed, so that other work may proceed.

Cavalry Escort for Governor-General.—The Duke of Connaught will have an escort when in the city, of the Thirtieth and Thirty-First Horse, from Merritt and Vernon. The Fifth Regiment will form a guard of honor for his excellency at the wharf, and the streets will be lined with men from the Fifth Regiment, the Blue-jackets from the Algonquin and Rainbow, High School cadets, and boy scouts.

Princess Theatre.—"The Young Wife" was the attraction offered last evening by the Williams Stock Co. A large crowd was in attendance and a great many were turned away. The play gave most eminent satisfaction and favorable comments were heard on all sides. "The Young Wife" contains all the attributes of a successful play. It has an intense plot, lots of good comedy, and permits the wearing of some beautiful gowns. Last

night every part in it was so exceedingly well played by the different members of the company that it is hard to single out one in particular. The leading role of the wife taken by Miss Mildred Page was an exceptionally well-balanced piece of acting. Her emotional work was splendid, and she won the entire sympathy of the audience. Col. Gordon was played quietly and effectively by Richard Lonsdale. Howard Foster in the English comedy part, added much to the enjoyment of the evening. Miss Hallie Mitchell looked charming in the juvenile part of June Clay and played it with much animation. Byron Alden presented the Senator successfully, and the remainder of the cast all deserve praise. The third act reflected great credit on the scene-painters' skill, and the duel scene was also very effective. "The Young Wife" is a splendid play, and it was admirably staged, and acted by the Williams Company.

Death Summons  
**STEAMBOAT INSPECTOR**

John A. Thomson Terminates Useful Career in Marine Department Service

Flags flying half-mast on the Department of Marine and Fisheries offices, and on many of the steamers in port indicated to-day their respect for the memory of the late John Alexander Thomson, inspector of steamboats.

Mr. Thomson died yesterday afternoon at the Royal Jubilee Hospital after a week's illness. However, he was far from well when he returned about a week ago from an inspection trip in the Kootenays, and after two days' treatment at home, he was moved from his residence, 374 Sylvia street, to the hospital, where he died not rally, and passed away as stated.

Mr. Thomson was the son of Andrew Thomson, of Newbiggin, England, who moved to Scotland, and at Glasgow he was born 35 years ago. He obtained a reputation as a marine engineer of standing, and was employed with many important vessels, steaming out of British ports till he came to this coast in 1888.

For some time after coming here he was engaged on various coasting vessels, and 23 years ago received his appointment from the Dominion government as steamboat inspector.

He made a very wide circle of friends in his professional capacity. From whom messages of condolence were received by the family when the news of his decease was made public.

Mr. Thomson was associated with an elder, with St. Andrew's Presbyterian Church, and from that church he will be buried on Thursday afternoon next, Rev. W. Leslie Clay officiating. The service will commence at 2:30 p. m.

He is survived by the widow, and one son, Francis A. Thomson, head of the department of engineering, State College of Washington at Pullman.

The funeral arrangements are in the hands of the B. C. Funeral Furnishing Company.

**SWITCHMAN KILLED.**

Tacoma, Sept. 2.—Stepping between cars to remedy a defect in the air brake of a train of empty passenger coaches, William Jacobson, a N. P. switchman, was crushed to death shortly before midnight, when a loose dining car bumped into the rear end of the train. Jacobson was 40 years old and unmarried.

**BAYLEY WILL FIGHT TO-MORROW MORNING**

Meets Billy Allen 11 a. m.—Barrieau Wants to Meet Allen Now

Joe Bayley and Billy Allen, the lightweight champion of Canada and the former champion, battle fifteen rounds to-morrow morning outside of Calgary for the Canadian title. Tommy Burns will likely be the third man in the ring. The fight is billed to start 11 o'clock.

The local boy who has defeated everything in sight is confident of again beating Allen, over whom he got a fifteen round decision a few months ago. Local followers of Bayley expect to see him make Allen take the count this time.

After this fight Joe will return to this city and for a few months will not take on any serious contenders for the lightweight title. It is Bayley's intention to meet no more top-notchers for some time. That he will meet middle weighters such as he fought on the prairies before meeting Allen, are his present plans. He is wise in the matter that he must take his time before going after the world's title.

He may be seen in action here again in the near future. There is a plan on foot at Vancouver to have Ernie Barrieau face Billy Allen. Vancouver papers are taking it to heart that Bayley does not meet their "phenom." This is what the News-Advertiser of last Sunday says:

"Bayley is losing a lot of friends through his refusal to meet Barrieau. The local boy was champion of the province and the Northwest when Bayley was in the amateur ranks and met all-comers. All boxers enter the professional ranks for what money they can get out of it, so it is rather difficult to see why Bayley should pass up a chance to pull down a good-sized purse if he is so sure of his ability to trim Barrieau. A match between the pair would draw a big house in British Columbia and it's the money that the pros want nowadays."

**NOW ENJOYING  
SPLENDID HEALTH**

Nervousness and Dyspepsia  
Cured by "Fruit-a-lives"

"Walkerton, Ont., May 9, 1911.  
"My trouble was extreme Nervousness, brought on by indigestion or Dyspepsia, from which I suffered in its worst form.

"I asked Mr. Hunter, my druggist, about 'Fruit-a-lives' and he advised me to try them.

"I took several boxes and am pleased to say I am now enjoying fine health.

"I honestly believe I owe my health to 'Fruit-a-lives' and strongly advise anyone suffering from indigestion, Dyspepsia, Nervousness or Sleeplessness, to commence using 'Fruit-a-lives' and continue this remedy until a cure is accomplished.

"ALEX. MC CARTER."  
"Fruit-a-lives" is sold by all dealers at 50c. a box, 6 for \$2.50, or trial size, 25c.—or write Fruit-a-lives Limited, Ottawa.

**FINED FOR SELLING  
LIQUOR AT COLWOOD**

Heavy Penalties Imposed on Licensee and Bartender for Breach of Laws

For having sold liquor in quantities of more than an imperial quart to one person, Daniel Campbell, licensee of the Colwood hotel, and Gordon McNair, bartender at the same hotel, were fined \$200 each in the provincial police court this morning.

Magistrate Jay declining to look on the defence that the sales were made individually to three men who all went to the hotel together, as any defence of the charge, it is probable that an appeal will be taken by the accused as he claims to have been following legal advice in the way his bartender made the sales.

Three men from one of the Sooke waterworks pipe line construction camps went to the Colwood hotel Saturday, August 24, and bought eight bottles of liquor and several bottles of beer, which were loaded in a box by the bartender for them, and taken by the men back to camp. The men said they were buying for all the men in camp, which J. A. Alkman, representing the two accused, held to be an agency.

Entering the hotel bar one of the men placed \$20 on the counter and ordered the liquor. He was told by the bartender that he could not be supplied except in individual sales. The men bought drinks and left the change on the bar. They then ordered the liquor in single bottles, the bartender taking money from the change on the counter after each order, and ringing it up on the cash register. On each transaction he placed three bottles on the counter, one before each of the men. The operation was repeated until the men had all the liquor they ordered, and then left. The transaction, according to the witnesses, occupied about two hours.

In defending the accused Mr. Alkman remarked on the hardship imposed on a licensee under the present liquor law and urged that had the bartender refused the sale of the second, or any one of the orders, he would, under the act, be liable to prosecution. A strict interpretation of the law, he said, would result in his clients being acquitted.

Magistrate Jay, however, thought otherwise, and having asked the witnesses if the money had been picked up at any time by either of the men after the change had been given the first time, and learning that it had been left on the bar, he came to the conclusion that the accused were both guilty and fined them accordingly.

The prosecution was handled by Provincial Constable W. R. Dunwoody for the provincial police department.

**REMOVAL OF INJUNCTION.**

Chief Justice Hunter Releases Embargo on Healey Property at Sooke Lake.

The chief justice this morning ordered the removal of the injunction given to W. Healey on the application of C. F. Davis, shortly before the home vacation commenced, whereby the Westholme Lumber Company was restrained from entering upon the land at the lake owned by him for the purposes of the Sooke waterworks.

The city wants about 162 acres of the 343 acres in the three sections belonging to Mr. Healey in the Malahat district for waterworks purposes, and the owner was given notice that the city would purchase the whole area before surveys were made. Then later the city limited its requirements and trouble accordingly began. The court gave Healey an injunction to restrain the Westholme from entering on the land for continuing their contract.

F. A. McDiarmid this morning secured the removal of the injunction. The arbitration in this case continues to-day.

Canadian bond and debenture issues made during the first six months of the year totalled \$9,721,000.

**Try Cuticura Soap and Ointment Free**

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a liberal sample of each, with 32-page booklet on the care and treatment of skin and hair, will be sent, post-free, on application to Cuticura Drug & Ointment Co., Boston, U. S. A.

**FIRE CHIEF DAVIS  
GOES TO CONVENTIONS**

President of One Gathering—Will Study Fire-Fighting Apparatus En Route

Fire Chief Davis leaves to-morrow on his visit to the conventions of the Pacific Coast Fire Chiefs' Association at Los Angeles, and the International Convention of Fire Chiefs at Denver.

Of the former body he is president, and at the latter he will meet the leading men in fire fighting experience of the continent.

He leaves a few days before the opening of the Los Angeles convention on Monday next in order that, in company with Chief Carlisle, of Vancouver, Chief Murphy, of San Francisco, and Chief Kinney, of Berkeley, they may on Saturday witness at Oakland the test of the Gorman fire pump, for which exceptional advantages are claimed.

On Monday the Fire Chiefs will be welcomed by Mayor Alexander at Los Angeles, the convention lasting till the thirteenth, and at which Chief Davis will read two papers. On the conclusion of this convention he proceeds to Denver, where the International Convention opens on September 17. Here he has also been invited to address the convention, and to read papers prepared.

On the way back he will visit a number of cities to inspect modern fire-fighting apparatus, fire boats, high pressure systems and similar improvements and in due course will present a report to the Victoria fire wardens.

The city council have voted the chief a sum in aid of his expenses, and have given him leave of absence. During the time he is away Deputy Chief Stewart will be in charge of the brigade.

**AUTOMOBILE ACCIDENT.**

Mr. Stinson's Car Thrown Into Collision With Light Post

Mr. and Mrs. J. O. Stinson, Mr. and Mrs. M. H. Pearce, and Miss McConnell were motoring down Courtney street towards Douglas street on Sunday evening, when the car skidded, owing, Mr. Stinson says, to the sudden decline of the asphalt down to Douglas street.

Mr. Stinson, who was running the car, and the speed-off, and clutch out, and in trying to right the car applied the brake, which caused the car to turn suddenly southward. Before it could be straightened it hit a cluster light post head on, breaking it off near the pavement. The impact broke the radiator, a lamp, and the windshield of the car, and the post fell on the cover top amidst a shower of glass. Fortunately for Mr. Stinson and party, the cover top was up, or else the iron post which weighs from four hundred to five hundred pounds might have caused serious damage. He would like to draw the attention of the city council and engineer to the sudden depressions like this at street corners, particularly at the corner of Fairfield road and Vancouver street, and also to one at the corner of Moss and Oscar streets, where "Danger, Go Slow" signs should be erected.

**WEATHER BULLETIN.**

Daily Report Furnished by the Victoria Meteorological Department.

Weather Synopsis  
The barometer has risen over this province and fair weather is becoming general. Heavy rains have occurred on the lower mainland and in Kootenay while in the Pacific provinces the weather is fair and cool and showers have only occurred in Eastern Manitoba.

**SIR WILFRID'S TOUR  
NOT CANCELLED**

POSTPONED TILL MORE  
CONVENIENT SEASON

Time and Circumstance Have Necessitated a Change of Leader's Programme

Ottawa, Sept. 2.—Reports being circulated in the Conservative press to the effect that Sir Wilfrid Laurier has cancelled his Western tour "from fear of reciprocity" has caused much amusement here. As a matter of fact Sir Wilfrid's trip to the West has not been "cancelled." It has, as stated yesterday, simply been "postponed." Why Sir Wilfrid should be "afraid" to say in September what he is ready to say in October is hard to explain. The report is being looked upon as being on a par with recent circular letters manufactured by the Conservative Boost Club in the capital and headed with a Moose Jaw date line in which the Liberal chief was practically "dared" to come and speak in Saskatchewan. The change in Sir Wilfrid's plans are due, not to any question of the policy, but simply to a matter of expediency. It was simply to start at first, September is the busiest month of the year in the west and an opportune time for meetings.

Among those who attended the conference yesterday was C. A. Foster, Secretary of the Temiskaming Liberal Association. Mr. Foster emphasized the fact that Sir Wilfrid's postponed visit to North Ontario until his return from the west the weather might be too severe to warrant his going. Traveling and hotel accommodation, Mr. Foster pointed out, were never first class, but would be worse in cold weather. Mr. Foster also pointed out that the Liberals had received Sir Wilfrid's promise to go north some time before he had determined upon his Western tour.

**BOURASSA MAY  
RUN IN THREE RIVERS**

ANXIOUS TO RE-ENTER  
DOMINION PARLIAMENT

Interesting Speculation in Regard to Future of the Volatile Nationalist Leader

Ottawa, Ont., Sept. 2.—War looms black from the constituency of Three Rivers for Henri Bourassa purposes, in the event of the constituency being thrown open for bye-election to re-enter the federal arena of politics through that door. In other words, it is stated on good authority at the capital that Mr. Bourassa is prepared to stand as candidate against all comers at Three Rivers.

A protest against the election of Hon. Jacques Bureau, ex-Solicitor General, is under consideration by the Conservative party, and in the event of the protest being upheld, the seat will be open for election. The entry of Mr. Bourassa into the arena as a Nationalist candidate will, it is apprehended, present a difficult situation for the Conservative party to face. Should the government place its seal of support upon the candidature, it would simply serve to emphasize the fact that the Conservative-Nationalist alliance is still in existence. Should they hold aloof, on the other hand, and support a candidate against Mr. Bourassa, the position of Messrs. Monk, Pelletier, and others would, be a most distressing one. It is understood that Mr. Bourassa was asked to run in Richelieu but that he considered his chances of success there as being very remote.

amanita variety, which resembling outwardly the edible mushroom, grows out of a cup-like root and is virulently poisonous. The town is deeply stirred at the terrible character of the fatalities, which it is hoped will not be further deepened by the loss of the mother.

On Monday morning a St. Catharines hotelman died from eating mushrooms and two other men were seriously ill.

## DISASTROUS FLOODS IN PENNSYLVANIA

Lives Lost and Much Damage Done by Overflowing Rivers and Streams

Pittsburg, Sept. 3.—Fatalities arising from the floods of Monday morning in Western Pennsylvania, the Panhandle of West Virginia and Eastern Ohio, were increased to forty to-day, when it became known that John Demestel, his wife and two children were missing from the ruins of their home on Charles Creek, near Canonsburg, Pa. Food in some sections is scarce because railroad communication has been cut off, but caravans of loaded wagons are making their way over badly washed roads, bearing needed supplies. Sanitary officers in the western Pennsylvania towns are already at work on large forces of men are cleaning streets and buildings. In some villages entire families are shoveling away mud.

The Charolais Valley, from Washington, Pa., to McKees Rocks, Pa., where the little stream empties into the Ohio river, is a scene of devastation. Ten thousand tons of hay floated away in the muddy torrent. The damage to mining plants will be very heavy.

## MEXICAN REVOLUTION.

Marfa, Tex., Sept. 3.—Ojinaga was captured by rebels to-day without firing a shot. The federal forces, commanded by General Sanchez, fled to the hills and a small garrison left behind failed to fight. With the capture of Ojinaga the rebels have secured badly-needed provisions, arms and ammunition.

## MANY SAVED FROM SUICIDE.

The Salvation Army in London has done a great work with its anti-suicide bureau. Since it was started, 4,754 persons have called to lay their troubles before Col. Emerson, and have asked him to "show cause" as to why they should not put an end to their lives. The largest number put down the cause of their troubles to financial reasons; after this, come drink or drugs and melancholia. The applicants come from every class, except the workers. There are clergymen, missionaries, military officers, clerks and company promoters. They have all been dealt with according to their needs, and such help has been given them as their cases seemed to demand. Legal and medical advice has been afforded; creditors have been reasoned with; reconciliations have been brought about with relatives. And the work, according to Gen. Booth, has been successful beyond the highest expectations.

## YOUR HAIR IS FLUFFY, BEAUTIFUL AND LUSTROUS IN A FEW MOMENTS

Girls! Get a 25 cent bottle of "Danderine" and try this. Also stops falling hair; destroys dandruff.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair. Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes, but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Danderine from any drugstore or toilet counter, and just try it.

## HOLIDAY FEELING AFFECTS MARKET

Lower Prices Result on New York Exchange—Bears Have Upper Hand

New York, Sept. 3.—The effect of overholiday feeling was certainly not to enthrone buying in the stock market to-day. The traders here talking politics and money rates and were following up their views with selling. The result was lower prices throughout the list, some of the notable issues losing as much as two points. It is not likely that to-day's movement will be taken as a gauge of future action, but sentiment is not such at the present time to encourage those operating for higher prices.

## CLEARANCES.

Chicago—Cash sales: wheat, 156,000 bu.; corn, 245,000 bu.; oats, 345,000 bu.  
New York—Next dividend on Can. Pfd. in Dec. will be at 11 per cent. or on usual basis of 7 per cent., besides this payment there will probably be an additional 1 1/2 or 2 per cent. declared on back dividends.

## TROUBLES OF ROCKEFELLERS.

Menaced by Black Hand, Guarded by Detectives.

New York, Sept. 3.—The secret of the present alarm at the J. D. Rockefeller estate, where for weeks disorder and crime have been frequent, was learned to-day. The ordinary force of four private watchmen has been increased to eighteen, all negroes, armed with repeating rifles and revolvers and supplemented with five savage Great Dane dogs. Then there are three deputy sheriffs in command of Index, Sheriff, Rosenthal, Westchester county and six operatives of the W. J. Burns agency, in command of Detective A. J. Boyd. The Black Hand clique that has so long been immune in its operations at Pocantico Hills has become so emboldened as to threaten the lives and property of Rockefeller himself, his son and his grandchildren, demanding heavy ransom if their contributions are ignored or the authorities are called into the case. J. D. Rockefeller, Jr., goes nowhere about the estate unless accompanied by guards. Some of the letters have been guarded by mail. One from Palermo, Italy, where Detective Petrosino of New York was murdered while seeking to expose the Black Hand, demanded blackmail of many million dollars.

## ARMY OFFICERS RECALLED.

Clash of Turkish and Greek Troops Cause of Order.

London, Sept. 3.—Greek army officers residing in Egypt have been ordered to return at once to Athens in consequence of recent grave conflict between Turkish and Greek troops on the frontier, according to a news agency dispatch from Alexandria.

Athens, Sept. 3.—The Greeks and Cretans disclaim all responsibility for the proposed filibustering expedition to the island of Samos in the Aegean Sea, where French and British warships are stationed to prevent the landing of an armed expedition.

The adventure was projected by a French journalist in Turkish pay, according to the Cretan journal to-day. His object was to create a reason for Turkish representations to the powers by causing trouble among the Greek inhabitants of Samos who desire to throw off their Turkish vassalage.

The French journalist is said to have been previously expelled from Greece and from the island of Rhodes, as he was suspected by the Greeks and Italians of being a Turkish spy.

The Canadian banks now possess a total of 2,700 branches.

## LOCAL MARKET.

(By Courtesy F. W. Stevenson & Co.)  
The local market continues dull, with some scattered trading in International Coal, Coronation Mines and Great West Permanent Loan.

We are reliably informed that the International Coal Company is making over \$15,000 per month net, notwithstanding the fact that they have been more or less handicapped by a shortage of cars. There is, no doubt the company is rapidly recovering lost ground, and while waiting to participate a resumption of dividends in the very near future, we believe that to those who can exercise patience, the shares should prove a profitable investment at current figures.

Considering the prevailing price and condition of the copper industry, Granby Consolidated presents the greatest speculative possibilities of anything on the local list. This company has been earning over \$15,000 a month late, or about 100 per cent. on the stock, and the profits arising from one year's operations, with copper at its present price, will be sufficient, or nearly so, to pay for the new smelter and other construction at Hidden Creek. It is estimated that 5,000 tons of ore, which will average better than 2 per cent. copper, has been blocked out at this point already, and the No. 2 lower grade than No. 1, is developing much better than expected. It is officially stated that all of the openings in the mine, tunnels, drifts, crosscuts and raises, are now being worked at full capacity. The importance of this will be appreciated when it is recalled that Granby's big mine at Phoenix averages less than 10 per cent. copper, and all values that are found at Hidden Creek. At the same time, all tests and calculations lead the management to believe that operating costs per ton of ore will be lower, and recovery of value higher than at Phoenix or Grand Forks. It seems to us that Granby to-day, through the acquisition of its Hidden Creek properties, is a bigger and better proposition than ever before.

Closing figure of \$115 bid for the Great West Permanent Loan are the highest yet recorded for this issue on the local exchange. No special reason for the advance of late is given, the demand being attributed to a more satisfactory state of the company's business.

## MONTREAL STOCKS.

Montreal, Sept. 3.—The bottom nearly fell out of the stock market this morning. There was deep depression in almost every direction. The principal feature was the falling off of Richelieu, which sold off from 110 on Friday night to 103, and the depression in Power, which declined from 225 to 223. P. R. was also weaker at 272, and cement at 253 bid.

The International Banque directors at a meeting to-day ruled the proxies of the Paris representatives out of order.

## CHICAGO CATTLE MARKET.

Chicago, Sept. 3.—Cattle—Receipts, 7,000; market weak; beefs, \$7.75 @ \$8.10; Texas steers, \$4.75 @ \$5.10; western, \$5.50 @ \$5.85; stockers and feeders, \$4.50 @ \$5.15; cows and heifers, \$3.00 @ \$3.75; Hogs—Receipts, 10,000; market slow; steady; light, \$5.20 @ \$5.35; mixed, \$4.90 @ \$5.10; heavy, \$4.75 @ \$5.00; pigs, \$4.50 @ \$4.75; bulk of sales, \$4.50 @ \$4.60. Sheep—Receipts, 4,000; market steady; natives, \$3.40 @ \$3.60; lambs, \$3.50 @ \$4.00; yearlings, \$4.50 @ \$5.00; western, native, \$4.50 @ \$5.10; western, \$4.50 @ \$5.10.

## BANK CLEARINGS.

August Totals Are Very Satisfactory—Totals for the Year.

Bank clearings for the first eight months of the year show an increase over the same period of last year of 28 per cent. The total to the last day of August was \$115,355,519 being \$25,058,867 ahead of the previous year.

July of this year was the highest month ever known in Victoria and August is but slightly behind it, and is one of the three highest months ever known. The total clearings for eight months this year are \$115,355,519 less than those for the whole of last year, and with the present activity the total for 1911 will be greatly exceeded by December 31.

A comparison of the last three years including to the end of August is as follows:

	1911	1910	1909
Jan.	\$11,902,519	\$9,012,716	\$7,390,478
Feb.	\$12,610,627	\$9,978,581	\$6,484,570
March	\$13,546,577	\$10,252,239	\$7,170,083
April	\$14,685,263	\$11,692,804	\$7,239,283
May	\$14,814,154	\$12,670,033	\$7,485,044
June	\$17,067,927	\$11,554,631	\$10,517,023
July	\$17,775,323	\$11,734,787	\$10,185,791
Aug.	\$16,254,589	\$11,294,981	\$8,865,589
Totals	\$115,355,519	\$90,236,032	\$64,261,704

## CHICAGO MARKETS

## FAR FROM BUOYANT

Bright Prospects in Grain Regions Has Effect of Depressing Prices

Chicago, Sept. 3.—The piling up of receipts over the holidays and the generally favorable weather reports for the grain belts in all territories had the effect of depressing prices in the wheat market to-day. The opening was lower, and the trend downward met with little resistance from the bull element throughout the trading.

Action in corn and oats was much the same, excepting that September corn closed a shade higher than Saturday. Large supplies of old stuff in corn are nowhere controverted, which is a September's bull position.

## WHEAT RECEIPTS

Wheat receipts in carloads follow:

	To-day	Year
Minneapolis ..	1,412	607
Duluth ..	145	64
Winnipeg ..	36	46
St. Louis ..	30	30
Kansas City ..	57,000	107,000

## WINNIPEG GRAIN MARKETS.

Winnipeg, Man., Sept. 3.—Market opened 1/2 lower for both October and December, while May dropped one cent. Oats were steady, flax weaker and dull. There was some rain last night in Manitoba and Saskatchewan, but not in sufficient quantity to delay harvesting operations. There was a good cash demand and sufficient export country. Receipts, 25 cars inspected, 60 in sight.

Wheat—October—Opened 9 1/2, closed 9 1/2; Dec. 3 1/2, closed 3 1/2; May, 5 1/2, closed 5 1/2; Oats—Oct. 3 1/2, closed 3 1/2; Nov. 3 1/2, closed 3 1/2; Dec. 3 1/2, closed 3 1/2; Jan. 3 1/2, closed 3 1/2; ## A REAL HOME

We have for sale a beautifully finished six roomed bungalow on a lot 60x120, corner of Hilda street and Chester avenue, the most beautiful residential district of Victoria. This bungalow has a large reception hall with beam ceilings, also a beautiful den with beam ceilings, built-in book cases and grate. It has also a beautifully finished parlor with grate and a dining room with built-in sideboards, a kitchen with built-in cupboards, all glass doors. The basement is cemented and has a fine new furnace, while the grounds are beautiful and decorated with the latest flowers. Now, what more? Oh, yes, the price; well, it has been reduced for a quick sale to \$7000, on regular terms, which is fully a thousand dollars less than similar dwellings have been sold for in the neighborhood and not on a corner where it is so convenient to have a garage.

## EXACTED FOR TERMS

Confession Does Not Surprise Those in Touch With Conditions in New York

New York, Aug. 1.—The statement of Jack Rose, the informer in the Tammany case, that an annual tribute of \$2,000,000 has been exacted by the Tammany organization from gamblers and others, for protection, is not considered extraordinary by those in touch with the conditions in New York.

His official report Mr. Nixon said, "The Tammany organization of men known as the 'combine' that is organized for systematic blackmail, and to work for Tammany and the money collected for the protection of the Tammany organization."

The New York National baseball club profits this year are estimated at \$500,000. Boston Red Sox have done a phenomenal business and expect to show a net profit of \$200,000.

The consumption of whiskey and rum in the United States for the year ended June 30, 1912, was 13,733,000 gallons. Previous record was 13,634,000 gallons in 1909. Consumption of beer, however, decreased 1,108,000 barrels from 1911.

## GREAT NORTHERN PREPARED TO BUILD

OVER HOPE MOUNTAINS SAYS L. C. GILMAN

Programme of Company in Connection With Its British Columbia Extensions

Vancouver, Sept. 2.—"We are prepared to build a single line of track from the summit of the Hope mountains down the western slope to Hope, and to give the Kettle valley line equal running rights over it, or to allow the Kettle valley line to construct the road and give us trackage facilities. The matter, I expect, will soon be amicably settled. The Great Northern will shortly award a contract for the construction of a 45-mile extension of the V. & E. line from Comolomon to the Tulapen river westward to the summit of the Hope mountains. This work will be rushed."

This was the definite announcement of G. N. R. policy in British Columbia made to the Times to-day by Mr. L. C. Gilman, assistant to the president of the H.U. system. Mr. Gilman added that one single line of railway over the western slope of the Hope range down the Coquella river would involve a heavy expenditure, and while serving the purpose of the two railways concerned, would not yield any substantial return for a considerable time.

Mr. Gilman came up from Seattle to-day with Mr. M. J. Costello, traffic manager of western lines, on official business.

HERE IS NEWS.

Potato War in Alberta—B. C. Spuds the Cause.

Calgary, Sept. 3.—A potato war is on here between the farmers and merchants. Incensed at what they contend is discrimination against Alberta-grown potatoes in favor of the British Columbia product, a number of farmers have organized and opened a local market, shaving the price of tubers about one-third, as compared with the price asked by local grocers. The farmers are using space in the local newspapers and doing a rushing business.

LEAD BOUNTIES CEASE.

Ottawa, Sept. 3.—No bounties on lead are now being paid by the Canadian government. The bounty is \$15 per ton until lead prices in London get to \$215 per ton, when the bounty ceases automatically. That figure has been reached.

The bounties of 30 cents per ton on pig iron and 80 cents per ton on electrically smelted steel will cease at the end of the year.

A petition is being circulated among Boston bank clerks to join in establishing a co-operative store where "married men" can save one-quarter on their groceries, and unmarried men save a like amount on their smokes and lunches. Of 2500 bank clerks in Boston 700 have already signed for membership. Each member owns one share of stock.

There is \$1,250,000 invested in manufacturing establishments in Canada. Employees number 517,844.

## OBITUARY RECORD

The funeral took place this afternoon of Mike Wool, the young man who met with an accident at Shawanigan Lake. He died on Sunday from the result of the accident at the early age of 24, and was buried at Ross Bay cemetery from the Victoria Undertaking Parlor.

The interment took place this afternoon of Emily Kathleen Kilner, four months old, the child of Frank M. Kilner, of 1028 Pandora avenue. She died on Sunday, the interment taking place this afternoon from the house, and 3 o'clock from St. John's church, the Rev. J. Stanley Arnd officiating.

This morning at the residence of his daughter, Mrs. Boiffenille, 1151 Pandora avenue, occurred the death of Charles Harrington, aged 77 years. The late Mr. Harrington had been a resident of this city for the past year, coming here from Ontario. He leaves six children, Mrs. James Pitt, of Toronto; Miss Harrington and Mrs. Boiffenille, of Victoria; William Harrington, of Vancouver; George Harrington, of Great Falls, Montana; and C. Harrington, of Victoria. The remains have been removed to the Hanna-Thomson Parlor pending funeral arrangements which will be announced later.

The funeral of John Bartin Bower, the seven-months-old son of Mr. and Mrs. L. M. Bower, 335 Flaggard street, who died here on August 30, will take place to-morrow afternoon at 3 o'clock from the B. C. Funeral Parlor, where the services will be held, the remains being afterwards interred at Ross Bay cemetery beside those of the child's great-grandmother. Funeral arrangements were postponed pending the arrival of the deceased child's father from Fort George.

The funeral of Oscar Le Pas, who died Friday night at the Jubilee hospital, took place yesterday afternoon at 3 o'clock at Lady Smith from the residence of the deceased lad's father, and fifteen minutes later from the Roman Catholic church. Rev. Father Nicolson conducting the services. Interment took place at the Lady Smith cemetery. There was a very large attendance of the boy's schoolmates and friends, and quantities of flowers covered the coffin, the following school-fellows acting as pallbearers: Masters Peter Conci, Victor Masset, Fred De Frame, J. H. Quebrun, F. Pineto and F. Hiquet.

The death occurred at Jubilee hospital last week of A. Bowden, the age of 29. The deceased, who was a native of England, is survived by a wife living at Leeds. He was a laborer by occupation and lived on Blanchard street. The funeral took

## FORESTERS HERE FOR CONVENTION

PROMINENT FROM ALL PARTS OF CONTINENT

Distinguished Gathering to Be Royally Welcomed to Victoria To-morrow Night

Many of the delegates to the annual convention of the Canadian Forestry Association which will open to-morrow evening are already here and the remainder will arrive to-morrow. They include the biggest men in forestry on the continent and represent all phases of this great subject.

The convention will be augmented with a public meeting in Alexandria Hall to-morrow night, when addresses of welcome will be delivered by Sir Richard McBride, Acting Mayor-Oakill, Hon. W. R. Ross, John Hendry, president of the Canadian Forestry Association, and other prominent visitors will reply. Some excellent speeches are expected, and no doubt there will be a large attendance. On Thursday morning the convention proper will begin with an address by Hon. W. R. Ross on "The Guardianship of the Public Forests of British Columbia." From then on the proceedings will continue in full swing, a full programme of papers and discussions having been provided. On Thursday following the afternoon session there will be a garden party at Government House and in the evening a banquet at the Empress Hotel.

The annual convention of the Canadian Forestry Association is one of the big events in Canadian industrial life and Victoria is fortunate in having a notable gathering as that which is about to transpire its annual business. The following are a few of the prominent foresters who will attend, in addition to the prominent men connected with this line of activity in the province:

**Dr. B. E. Fernow.**  
 Dr. B. E. Fernow, dean of the faculty of forestry, Toronto University, is considered the foremost forester on the continent. He was born and educated in Germany. His first active work, however, was not as a forester, but as a Uhlman in the German army in the Franco-Prussian war, and a striking-looking soldier he must have been, standing six feet five inches. It is said of Dr. Fernow that he can cover more territory on foot in a day than any other forester on the continent. He came to the United States in 1874 and at that time, as nobody knew or cared anything about forestry in the United States republic Dr. Fernow had to seek other means of employment and he worked in a dry goods store. In the evening he devoted his time to cultivating among the people an interest in forestry and was one of the founders of the American Foresters' Association. For twelve years he was chief forester of the United States, being succeeded by Gifford Pinchot. Five years ago he came to Toronto as head of the forestry department and has had wonderful success with his pupils, many of whom have forged to the front rank in forestry. Dr. Fernow is the leading authority on forestry on the continent, and his works are text-books in all schools devoted to this study.

**Hon. Jules Allard.**  
 Hon. Jules Allard, minister of lands and forests in Quebec, is in charge of Sir Lomer Gouin's new policy of conservation. Since he became minister he has taken an active interest in timber questions and has devoted his energy and undoubted ability to this carrying out of a progressive policy. Six years ago the province chose two young men and sent them to the United States and France to be trained in forestry. When they returned they were given a portion of the province to look after and from time to time other sections were added to their scope. One of them, G. C.

Piche, is now a chief forester of the province of Quebec. A school of forestry was established in connection with Laval University and in vacations fifteen students are employed in the work throughout the province by the government, giving them practical experience on the ground and affording an opportunity for the development of the right class of men. An excellent plan adopted by the province is to set aside a township timber reserve to be used as a source of supply for a community near it. Land unsuitable for farming is used for this purpose, and by being properly utilized it can be made a permanent source of supply. The government is also planting the sand lands, of which there are large areas in Quebec. The government

has also Aubrey White, deputy minister of crown lands for Ontario since 1885; and J. B. White, manager of the woods work and sawmills of the great Riddell pulp and paper company. His headquarters are at Calumet, Quebec. Aubrey White has distinction in another direction in that he is grand master of the Grand Lodge of Canada A. F. and A. M.

**J. B. Knapp.**  
 J. B. Knapp is assistant district forester of the U. S. service at Portland. For four years he has been making a systematic investigation of how to reduce the waste in handling Pacific Coast timber without making conditions too onerous for the lumberman. Another prominent timber man coming in W. W. Rutherford, one of the leading manufacturers of lumber in Montreal, and who by the way is also mayor of Westmont.

**Hon. W. A. Charlton.**  
 Hon. W. A. Charlton, once commissioner of crown lands in the Ross administration in Ontario, is vice-president of the Canadian Forestry Association, and as such he will attend the forestry convention here. He is not only an ex-politician, but a partner in the lumber manufacturing firm of Messrs. J. and W. A. Charlton, which at one time was the largest timber owners in Southwest Ontario. Since the death of his brother, the late Mr. John Charlton, M. P., he has been sole-manager of the business. When the forest tracts of that part of the province were levelled and turned into farms, the brothers bought enormous tracts of timber areas in Northern Ontario.

**Clyde Leavitt.**  
 Clyde Leavitt is forester for the Conservation Commission and chief fire inspector for the Railway Commission. He was one of Dr. Fernow's pupils when that great forester was the head of the Cornell forestry school. Of late he has been formulating rules for the Railway Commission regarding the operation of locomotives in wooded districts, apropos of which

there is likely to be some interesting discussion at the convention.

**E. T. Allen.**  
 E. T. Allen is the big man of the Western Forest and Conservation Association, an organization which covers all the Western States. The splendid system adopted by this association has wonderfully minimized the losses from forest fires in recent years.

## MUTUAL LIFE PRESIDENT HERE

OFFICERS ON WESTERN INSPECTION VISIT

E. P. Clement, K. C., Finds Prosperous Conditions in Prairie Provinces

Two prominent officials of the Mutual Life Assurance Company of Canada are in the city. They are President E. P. Clement, K.C.B., and Geo. Wegmann, the Winnipeg director, who have been engaged in visiting Western agencies.

In the course of a chat with Mr. Clement, the president said their visit was due to the large loan interests of the company in Western Canada, their loan investments being over eight millions in this portion of the Dominion alone. They had one large loan going through in this city on a new business block which would equal anything the company held on business property in the Dominion, and that he thought was a test of the confidence the company had in the building progress of Victoria, for he could assure the public the company was in a position to choose the best business offering, and accordingly they had never lost a dollar through rash investment.

In their visit they had traversed some eight or nine hundred miles by automobile in the clay belt around Regina, and were assured that the loans they had in view were absolutely safe. The harvest promised to be a bumper one, but such was the assurance of the Saskatchewan farmer that no sooner did he get a good crop than instead of paying off liabilities, he was at once acquiring new holdings. The effect at Regina from the cyclone of June 27 had not been very detrimental to them, as the properties in which they were interested were of the best class where re-building would soon wipe out the effects of the disaster. They had a large loan on the Presbyterian Church, which was one of the buildings suffering most.

He found, however, a general intention among the more prosperous farmers to leave the western districts and settle on the Pacific Coast, and he saw a large number would come to British Columbia. The American farmers who had gone into the southern districts of Saskatchewan and Alberta, most of them with capital, were doing exceedingly well, and the loan companies had no hesitation in extending to them the maximum facilities. The development of Canada, particularly in the Western provinces, was calling for all the money which was available, and the companies like the Mutual Life which are doing a large amount of business in that assisting such enterprises they were contributing to the building up of the country.

The Mutual Life, he said, speaking the assurance side, had grown from small beginnings. It was the only life office of the mutual character in Canada, and the only large office doing a strictly Dominion business. They were ways introducing new ideas to supply the wants of customers and could fairly claim to be one of the most progressive companies. One feature would like to refer to in connection with the Mutual Life was that it had good second in the Dominion, some few years of life policies. This was a proof that people in Victoria who went to anything intended to stand by the undertaking, and this fact was also a sign of the prosperity of the people.

Mr. Clement said that the Insurance Act of 1910 placed Canadian life assurance companies among the safest companies in the world. The act, the credit of which largely lay with Mr. Fielding, had entirely remodelled the Canadian system, and its relationship with other systems, and had been based upon careful and continuous consultation with the companies, as well as upon the proceedings of the commission of 1908.

The power of investments, in the classes of security which a company might undertake, was unusually generous and embraced classes of business which it had never been the policy of the company to engage in.

Mr. Clement and Mr. Wegmann have been shown round the city by the local manager, R. L. Drury, and both express themselves highly pleased with the developments which have taken place in the last few months. Mr. Clement not having been here for two years.

Mr. Clement is a well-known Liberal speaker. He practiced law at Berlin, Ont., and was town councillor there. He was a county court judge in Essex during 1907, and retired on becoming vice-president of the Mutual Life, being appointed president in 1908. He unsuccessfully contested North Waterloo against J. E. Segram in 1904 for the House of Commons.

## HOUSE FLIES

are hatched in manure and revel in filth. Scientists have discovered that they are largely responsible for the spread of Tuberculosis, Typhoid, Diphtheria, Dysentery, Infantile Diseases of the Bowels, etc.

Every packet of **WILSON'S FLY PADS** will kill more flies than 300 sheets of sticky paper.

## A Good Ranch Proposition

We have for sale a 150-acre ranch on Gabriola Island, 5 miles from Nanaimo, which is an exceptional opportunity for the gentleman who would farm.

Forty acres of this fine property is already under cultivation, the balance being covered with saleable timber. There is a 5-roomed house, a barn, 55x100 feet, together with chicken house, pig pen, milk house, etc. There are 30 bearing fruit trees and 50 trees about 2 years old.

A Vancouver Syndicate is preparing to exploit for summer resort purposes, land within half a mile of this property.

There are about 75 settlers on Gabriola Island, two schools and a bi-weekly mail service. The island is to have an improved ferry service with Nanaimo, in the near future.

Not the least point in favor of this property is the price, which is considerably lower than other property in this vicinity. It will pay you to investigate.

PRICE, \$110 PER ACRE

Terms, one-third cash, balance 1 and 2 years.

Let us tell you more about this property.
